Ameripol Tires to Be in Salem Soon

Goodrich Company Places Synthetic Rubber on Market

Passenger-car tires made with Ameripol, the recently announced new synthetic rubber created in the research laboratories of the B. F. Goodrich company, will soon be seen in Salem, it was stated yesterday by Walter H. Zosel, manager of Goodrich-Silvertown stores, located at 198 South Commercial street.

The revolutionary innovation in tires, made in Ameripol which is produced from raw materials available in plentiful quantities in the United States, has attracted country-wide attention since John L. Collyer, president of the Goodrich company, announced in New York on June 5 the step taken in an effort to aid the cause of national preparedness, it was said.

These tires made with "Liberty Rubber" will be available only in the 6.00x16 size which accounts for 45 per cent of the tire industry's passenger-car tire pro-duction, Zosel said. When the company gets into larger production of the new synthetic, which can replace natural rubber in the event of a national emergency, other sizes and types of tires may

It was pointed out that tires are but the latest of many products now being made of Ameri-pol. Because of its unusual re-Executor of the Estate of Mary Podrabsky, deceased.

Sistance to oils, greases and heat,
Goodrich is already making oil and gasoline hose, gaskets, automotive parts, and vital parts of its expander tube brake for airplanes of Ameripol for use in services where these conditions are encountered.
