Six Acres Hairy Vetch Is Burned

PERRYDALE—The first field fire of the season was Monday at the Jack De Jong farm when a

started from the combine and burned six acres of hairy vetch. The Sheridan fire truck came out and about a hundred men of the community fought fire for an hour and a half. An hour later another fire broke out. It is thought perhaps it started from stubble straw that might have

been twisted around the axle of the tractor wheel and caught afire in the first fire and smoldered along for a while. Smoke was not noticed to be coming from it due to the heavy smoke from the other fire. All the fire fighters returned for the second round but

it did not do as much damage as the first.
Mr. and Mrs. Dick De Jong went to Portland Monday to see his sister, Mrs. August Rohde, who has been in Portland for medical treatment for six weeks. Mrs. Rohde was to be moved Tuesday to a nurses home for care, her

condition has grown steadily worse.
Ray Hobson, county milk tester, has been helping Jack De Jong with his harvest after he finished his testing.
George Benedict of McMinnville was a business caller here Monday.
