War Handicaps Stock Activity

Leading Issues Shift Listlessly Over Small Area

NEW YORK, July 12—(AP)—Domestic political and European war imponderables continued as speculative handicaps in today's stock market and leading issues shifted listlessly over a restricted area.

Scattered stocks managed to emerge with negligible advances but these were overbalanced by declines of fractions.

The Associated Press average of 60 issues was off .1 of a point at 41.1. In the four preceding sessions the composite had remained at 41.2. Transfers of 255,990 shares were the second smallest for the week to date and compared with 328,330 yesterday. Of 574 individual stocks changing hands, 201 were down, 186 up and 187 unchanged.

As in the past several days, blame for today's lackadaisical proceedings was laid mainly on the inclination of speculative contingents to keep decks reasonably clear pending next week's democratic convention outcome and clarification of the foreign picture which indicated to some an imminent Hittler smash at England and a possible enforced peace.

Pullman was one of the few losers of more than a point, seemingly reflecting the action of the justice department in filing civil proceedings against this company to divorce manufacture from operation of sleeping cars.

Unchanged to lower were US Steel, General Motors, Chrysler, Douglas Aircraft, General Electric, Anaconda, Consolidated Edison, Santa Fe, Sears Roebuck and Eastman Kodak.

Advances were held by Bethlehem Steel, United Aircraft, American Telephone, Great Northern, Texas Corp., Westinghouse and Woolworth.

Gardeners' Club Meets at Park

INDEPENDENCE—The Independence Garden club met at the city park Monday afternoon for a covered dish dinner with Mrs. J. N. Jones, Mrs. F. G. Hewett and Mrs. F. E. Hennagin as hostesses. About 30 members and several guests were present.

Following the luncheon the business meeting was presided over by the president, Mrs. F. E. Hennagin. The club voted to support the hop festival committee in the patriotic parade held during the hop fiesta in August.

Mrs. M. J. O'Donnell and Mrs. Oscar Moore gave an interesting demonstration in flower arrangements. Mrs. Cleve Robinson also gave a demonstration.

A letter was read from the state president of the State Federation of Garden clubs stating that the Independence club has been honored by Mrs. William Campbell receiving the appointment as state flower show chairman.

Following the business meeting the members visited the Glen Smith gardens at which a new fireplace was inspected; the sunken gardens of Mrs. J. N. Jones and the garden of Mrs. C. O. Sloper.

The following new members have been added to the membership roll of the club: Mrs. C. H. Carey, Mrs. A. H. Harding and Mrs. Grant Byers.

Rosedale Family Has Visitors

ROSEDALE—Mrs. Clifford Suttle and two sons from Tillamook are visiting at the parental Cole home.

A truck load of young people from Oregon left Portland Sunday night for the Idaho Friend's Christian Endeavor conference at Payette Lakes, near McCall, Idaho. Milton Presnell, Lloyd Brown and Esther Cammack were among the number from this place. Miss Cammack is to conduct a class on C. E. methods. Walter Conk accompanied the group of about 30 as chaperone.

Mrs. Gladys Conk and daughter, Mildred, are spending the week with her mother in Portland.

Mr. and Mrs. Paul Cammack climbed Mt. Hood last wednesday. They were accompanied by Mrs. Cammack's sister, Mignon Macy and Morris and Dean Macy of Scotts Mills. They returned to school work at Eugene Saturday night.

Mrs. Katherine Themes, who has been visiting at the Hamilton home has returned to California.

Mrs. J. D. Alexander is visiting her son Norman and family.

From California

AMITY—Mrs. Dora Blair Fuller of Centerville, Calif., is a guest this month at the home of her sister, Florence Blair.

Wool in Boston

BOSTON, July 12—(AP)—(USDA)—Very little business was transacted today on geasy combing domestic wools in the Boston market. Quotations were fairly steady but largely nominal because of the absence of trading. Buyers were showing little interest and holders were not attempting to stimulate it by making reductions in quotations.

The group will meet for further organization within a few days. Any one interested in the work is being invited to attend. Harold Adams, jr., son of Superintendent H. W. Adams, has been elected to lead the group. Plans are to give some production in last August or early September.

Wheat Takes Drop After Brief Rally

Better Moisture, Hedging on New Crop Blamed for Late Decline

CHICAGO, July 12—(AP)—After a temporary show of rallying power, wheat prices slumped again today and finished fractionally lower at the lowest close since last September 1.

Hedging of the new crop coming to market and improved moisture conditions in the domestic spring wheat belt were blamed largely for the late decline, which erased new gains of almost a cent earlier in the session.

Final prices were unchanged to ⅝ lower compared with yesterday's finish, July 72⅞-¾, September 73⅜-⅝. Corn closed ⅜-½ down, July 61¼-⅛, September 57⅞-¾; oats unchanged to ⅛ higher; rye ¼-⅜ higher and lard 8-12 lower.

Some wheat buying early in the session was attributed to mills and elevators, with clearing skies in the spring wheat belt and forecast of fair and warmer weather causing some short covering.

Cash wheat prices, however, were ½-1 cent lower, with the basis steady to a shade easier, despite heavy shipping sales totalling 291,000 bushels, the largest since November, 1938. Receipts of 413 cars were the largest of the season. No. 1 red wheat sold up to 77¼ in the spot market.

Pessimistic reports about the Canadian wheat crop caused some of the buying.

Files for Divorce

DALLAS—A suit for divorce has been filed in the circuit court of Polk county by Joseph M. Card against Patricia Card. The plaintiff alleges incompatability. Oscar Hayter is attorney for the plaintiff.

Ranges Parched From Rain Lack

PORTLAND, July 12—(AP)—The abnormal absence of rain left most Oregon ranges parched today.

Lowland ranges, although covered with a good crop of fairly well cured grass, were particularly dry, the agricultural marketing service reported. Higher elevation pastures were in better shape.

The outlook was satisfactory for livestock.

Hop Crop Needs More Moisture

PORTLAND, July 12.—(AP)—The immature Oregon hop crop needed rain today to rescue it from possible losses.

The agricultural marketing service had not received reports of damage but feared the consequences unless moisture reached the Willamette valley yards in two weeks. The size and quality of the crop, still "in the making," will depend largely upon weather conditions.

No sales or contracts were recorded for the week.

Superphosphate Orders Are Due

DALLAS—Orders for triple superphosphate in connection with the agricultural conservation program are now being taken at the county agent's office.

Farmers wishing to receive this material as a grant of aid under the 1940 agricultural conservation program should make application for the amount needed as soon as possible due to the limited supply available, states W. C. Leth, Polk county agent and secretary of the Polk county agricultural conservation association.

The prices on this material is still $40 per ton on 196 ton allotted this county.

Wool Market Is Nearly Stagnant

BOSTON, July 12.—(AP)—The Commercial Bulletin will say tomorrow:

"The wool market has been well nigh stagnant this week. Sales have been few and far between and usually for off sorts or specialties, the sale of which did not typify the market but which evidently indicated a softer price basis, especially for the finer wools.

"Medium wools keep reasonably firm, although it is not easy to get 40 cents delivered for medium Ohio-Michigan or Missouri country-packed. A bid of 38 cents, however, was rejected. Some fine and half-blood average wools have been taken in Montana this week in the range of 75-80 cents, clean basis, at Boston, and some choice staple new Mexican at 80-82 cents, clean basis.

"Civilian goods trade is still disappointing and the mills with government orders appear to be well covered against current requirements.

"Offerings of South American wools are less pronounced, although a fair weight of various off types of wool have been bought for import at relatively low prices which usually go to European consumers.

"Mohair is a bit soft, too. Sales in Texas of 50,000 pounds are reported at 50 and 60 cents, respectively, for adult and kid and a like quantity at 2½ cents less for each description."

Return From Trip

INDEPENDENCE—Mrs. Bessie L. Grover returned Sunday from a 10 days' trip to St. Louis, Mo., where she attended the fifth national convention of the Townsend club, held there June 30 to July 4. Mrs. Grover was the delegate from the local club No. 1. She reports that there were delegates present from every state as well as from Alaska and that the Oregon delegation totaled 119.

Berry Harvest Is Completed, North Howell

NORTH HOWELL—Loganberry picking is over for this season, raspberries, blackcaps and boysenberries are almost finished and there will be a brief vacation before evergreen blackberries are ready to pick.

Owing to a light frost about five weeks ago, several berry growers believe the top crop was severely injured and the complete lack of rain has also had a damaging effect. With these conditions and the lowest price on record, many growers are ready to take out their loganberry plantings before another season.

The hay crop, vetch and oats, and Austrian field peas have been fine crops and no rain appeared to hinder their harvest.

Winter wheat and oats are ready and combines and binders start operating this week.

1940 Pear Crop Estimate Raised

WASHINGTON, DC, July 12—(AP)—It was indicated today that the nation's 1940 pear crop would total 31,240,000 bushels, an increase of 1 per cent over the June 1 forecast.

This would compare with a 31,047,000-bushel production for 1939 and a ten-year (1929-38) average of 26,333,000 bushels.

Production in the three Pacific coast states was indicated to be 65 per cent of the total crop, compared with 66 per cent last year and a 10-year average of 66 per cent.

The Bartlett crop of the area was placed at 13,891 bushels, 5 per cent less than last year but 4 per cent better than the average. Production of other types was forecast at 6,399,000 bushels, 6 per cent larger than last year and 51 per cent above the 10-year average.
