

### Credit Union Is Talked by Club

**Mr. Angel Civic Group Studies Report on PUD**

MT. ANGEL—The Civic club, meeting at the home of Joseph Lacher Tuesday night, heard Tony Traeger's report on the float which the club is entering in the flag festival parade. He announced that the work on the float was progressing nicely and the members were asked for opinions on the motto, decorating scheme and other details.

President Joseph Hausler then talked in detail about credit unions. He had received complete information about the Oregon Credit unions from the superintendent of banks at Salem. This information included details about organization, operation, functions and laws, and had the appreciation of the members of the club.

A special committee will be appointed to study further on the subject in preparation for laying a thorough foundation for the establishment of a credit union in Mt. Angel. This union is to be independent of the Civic club and will be open to members of the community regardless of whether or not they are members of the Civic club. Alfred Huber and Hubert Esser met with Father Alcutis to discuss the matter and reported a satisfactory understanding was reached.

A short time was spent on the study of the report of the hydroelectric commission which was released July 16 and made available to the club through the courtesy of Miss Theresa Dehler, parish librarian. The public's lack of information on the PUD was deplored and the club will strive to inform as many people as possible, so they may find out the real truths as found and vouched for by the hydroelectric commission. With the time for petitions for the November ballot coming

### Sea Blockade of Norway Still Carried on

That Britain's blockade of Norway is still very much in effect is indicated in above Radiophoto of a British destroyer stopping for inspection a merchant vessel off Norway's coast, according to the London caption. The warship's identification (white spot on the ship's side) was censored in London. Photo of Briton's making ready to board the suspicious looking freighter was made from an accompanying destroyer.—IIN photo.

### Liberty Girl Scouts to Leave Sunday For Camp; Will Do Their Own Cooking

LIBERTY—The Liberty Girl Scout troop will leave Sunday afternoon for its annual week's encampment. A truck will take the girls and their tents and camping equipment to Wiema beach near Oretown, where camp was held last year.

Accompanying the girls for the camp will be Miss Margaret Gilstrap and Miss Alberta Wilson, leaders of the troop.

The troop conducts its camp differently than is usual with such groups, in that the scouts do all the camp work and cooking. Each tent of two or three girls cooks its own breakfast and lunch. The evening meal is a camp affair, and turns are taken in its preparation.

Also, each girl brings sufficient food for her breakfast and lunches and contributes her share of supplies to the camp dinner menus.

This year camp cleanup and tent inspection and classes are planned for the forenoons. The afternoons will be given over to sea bathing, hikes and other recreational activity. Singing around a beach campfire each evening is a feature of the camp.

### Legion Auxiliary Sponsor of Film

"The Flag Speaks" to Be Shown Saturday at Silverton

SILVERTON—As an American gesture, Mrs. Clifton Dickerson, president of the American Legion auxiliary, is urging all patriotic-minded citizens to make a special effort to attend the play, "The Flag Speaks," in technical or, Saturday evening, at the Palace theatre.

"The Flag Speaks" is directed by David Miller in a two-reel film from a script by Robert Lees and Frederick Rinaldo. Robert Warrick, Sara Helen, Clyde King, and a cast of 400 others make up the cast of the drama.

The Legion auxiliary is sponsoring the film because it feels the need of more and clearer understanding of the significance of the flag at this critical time of the re-education of the nations of the world, Mrs. Dickerson reports.

Standing for what the flag does, the film urges that Americans show proper respect for the flag, this emblem of democracy, and that they do not use it for such things as tablecloths or desk draper, and even on the wall. It shows the proper methods of hanging and saluting the flag, the outward display of America's heartfelt respect for their symbol of freedom and democracy.

### Scio Soon to Open School Bus Bids

**Few Aliens Are Registered; Eastern Travelers Meet Heat**

SCIO—Board of school district No. 33, the Shindler school, will open bids at 10 a.m., August 9, for bonds of \$2000 to finance the purchase of a school bus to be used to transport grade and high school pupils to Scio.

Scio city council met in regular session Thursday night. The meeting probably was the last at the present site, as the city hall, containing the council chamber, is soon to be moved to a new location.

F. L. Kirby, Southern Pacific agent at West Scio, reports shipment of sawlogs from that place to Silverton mills being during most of the current season. Several carloads of lambs also have started to California markets from this point.

Streams in Scio foothills became eroding torrents during recent heavy rains in those sections. Large streams, however, were only slightly augmented, as thirsty fields drank in most of the moisture. Virtually all fall grains had been harvested, and the rains were too late, in most cases, to benefit spring crops, already curtailed by drought.

Extreme heat has been experienced by Mr. and Mrs. Max Wesley of Scio, who are on an extended motor trip through the mid west and south, according to word received here. Mr. and Mrs. Harold Peterson, of Tucson, Ariz., are in charge of Max's Place during the Wesleys' absence.

Postmaster E. Phillips states but few aliens have registered at the local post office, as required by the recent federal enactment. Principally affected in this community are older generations of Czechs and Slovaks, although a majority of these are naturalized. Scio territory comprises the largest Czech colony on the Pacific coast, numbering nearly 300 families.

Mrs. Robin Truax (Geraldine Rodgers) is reported convalescing from infantile paralysis, contracted at her Tacoma home, at the Albany home of her parents, Mr. and Mrs. J. L. Rodgers, formerly of Scio.

### California Man Returns to Home

W. D. Gutshall, who has spent the summer with Scio friends, has returned to his Los Angeles home in company with his brother and sister-in-law, Mr. and Mrs. John Gutshall. John Gutshall has been a traffic officer at the southern city for several years. All plan to spend future summers here.

"Wildwood," the summer residence of Dr. A. G. Prill, recently purchased by John Gutshall, is to be occupied by Mr. and Mrs. Jake Ester, formerly of Los Angeles. The property includes two acres on Blizyeu creek about ten miles southeast of Scio. A sizable fish pond is located on the place.

### Club Is Told of Boys' Work Shop

INDEPENDENCE—O. G. Hughson of the state building congress spoke to the Independence Lions club of the boys' work shops in Oregon at its meeting Monday noon at Campbell's hall. Mr. Hughson explained the workings of his organization, how shops, materials and tools are provided for boys in various localities who are mechanically inclined, through the cooperation of lumber men and business firms. The boys are given a course in construction work. He said that 12 scholarships would be provided for boys this summer for a course at Oregon State college.

Mr. Hughson stated that he is working without salary, his work being his contribution to citizenship.

The next meeting of the Lions club will be Monday noon, August 13, with Paul Robinson in charge of the program.

### 12 Attending Bible School

ST. LOUIS—Religious summer school started here Monday with Sisters Catherine and Angustina, OSB, in charge.

School will continue for a period of two weeks.

Approximately 12 children were in attendance this week.

The first communion class will receive their first holy communion Sunday morning, August 11, in the St. Louis Catholic church.

But to Borden's must go the credit for evaporating this good milk, irradiating it with sunshine Vitamin D, and identifying it for your use with the familiar blue and white Borden label. Look for it today.

You'll discover several cans to be an economy.
