## Lowest Wheat Price Posted

Quotations in Chicago Under Any of Season; Trade Is Light

CHICAGO, Aug. 15-(P)-The lowest wheat prices of the season were posted on board of trade blackboard today.

Wheat closed %-1 cent lower, September contracts being quoted at 71%-72 and December 73%-%. Earlier in the season September wheat sold as high as

\$1.11%. Pit brokers said selling was not on a large scale but moderate hedging sales and some short operations more than offset the rather limited buying that came from commercial interests. Wheat movement in the northwest was liberal but most of the grain was earmarked for storage and government loans. Thus, hedging was not as great as it might have been. Trade was largely of a professional nature inasmuch as most dealers were marking time pending a definite turn in the war situation.

Wheat receipts at Minneapolis and Duluth totaled 1,061 cars compared with a week ago and 708 a year ago but with loan rates ranging up to almost 20 cents above market prices in some localities traders were not inclined to look for much pressure from new grain.

Export business remained quiet but eastern interests reported the French West Indies recently bought more than 23,000 tons of Canadian flour and 500 tons of American soft wheat flour, the latter having a subsidy of around 70 cents a barrel.

#### Nice Work if You can Get It

We're supposed to tell you about the big caliper here, but since your interest mostly is confined to the young lady, we'll begin by stating she is Marjorie Moore, one of the beauties entered in the Venice, Cal., Mardi Gras. The caliper, a glamorized version of the ordinary one used by mechanics, is the brilliant idea of the Venice press agent.
