

Wheat Prices Drop One Cent

Recover Half the Loss by Closing Time; Rally Is Credited to Milling

CHICAGO, Sept. 12 (AP)—Wheat prices dropped more than a cent but then recovered half of the loss today as the market drifted through another session of watchful waiting for signs of a definite turn in the battle of Britain.

Most of the selling was inspired by weakness of securities, which traders watched closely for hints of sentiment in financial circles. Scattered purchases that helped to rally the market at times were credited to milling and consuming interests but on the whole trade was restricted by the general uncertainty.

Wheat closed 1/4 cent lower than yesterday, September 7 1/4, December 7 3/4-1/4.

There were no major grain trade developments on which to base market action, although reports indicated a cash wheat demand at some terminals was diminished. More purchasing credited to the federal insurance agency was reported.

Pit brokers regard wheat prices as virtually on a domestic basis in view of the loan program which has furnished commercial supplies, holding prices above world levels.

Wheat at Buenos Aires is more than a dime below the Chicago market and is around the lowest level since spring. Winter wheat futures prices were at minimum levels since June but spot prices are several cents below Chicago values.

Flynn Under Pirate Flag

In the title role of the picture, "The Sea Hawk," Errol Flynn portrays a galley slave who became the daring chief of the most dangerous band of men ever to fight under the flag of the "skull and crossbones," starting Saturday at the Elstree theatre, plus special added attraction, Bing Crosby in "Singing With Bink."

Stocks Dropping To Lower Levels

Fewer Shares Exchanged Than on Yesterday; Motors Get Boost

NEW YORK, Sept. 12 (AP)—Stocks moved to lower levels today in a market stratified by the war.

Buying and selling appeared to be more testing operations with professionals seeking resistance levels in tentative dealings. Only 492,136 shares were exchanged compared with 453,050 yesterday.

Overnight orders, apparently based on belief Wednesday's decline marked overselling, gave today's earliest dealings an uplift. In the absence of supporting volume, however, the rises were quickly eradicated. At the last, The Associated Press average of 60 selected stocks was off .5 of a point at 43.

Domestic industry continued to present a variety of optimistic barometers to market men. The weekly freight carloadings report showed a less-than-seasonal decline. The motor industry displayed a sharp boost in production.

Losses of around a point or so were noted at the final bell for Bethlehem Steel, US Steel, Caterpillar, Douglas, United Aircraft, Sperry, Eastman, Johns-Manville, Allied Chemical, International Nickel, American Telephone, Texas Corp., Standard Oil of NJ, and Hercules Powder.

Winter Vetch Is On Seed Program

Allocations Next Week to Polk County Farmers Who Qualify

DALLAS — Willamette vetch, the winter hardy variety of common vetch, is now included in the seed program of the government for 1941 and seed has been secured for distribution to Polk county farmers.

Allocations of seed are to be made next week to growers who are able to qualify for the production of this particular variety which is to be purchased on the basis of certification at 4 1/2 cents per pound next year.

Growers who have been producing this seed heretofore are to receive first consideration in the distribution of the acreage to the extent of the acreage they have been producing in the past. After these growers have been allotted the amount of seed required, the remainder will be allotted other farmers who have suitable soil for it.

Fields on which Willamette vetch is to be planted must be free of all other vetch seed and no vetch should be produced on this area for at least the past three crop years.

Producers who expect to produce this seed must be in compliance with regard to allotments in connection with the agricultural conservation program. The seed must be drilled and should not be harrowed or otherwise disturbed in such a manner that drill rows might not be easily identified. Only seed secured through the office of the Polk County Agricultural Commission can be used for seeding purposes.

Poultry Raiser Sells in Hawaii

ALBANY — Ed Dyer, one of the prominent poultry raisers of the Albany vicinity, is shipping 300 dozen hatching eggs to the Hawaiian Islands every week. Dyer specializes in high grade poultry and the eggs draw top price.

Another big industry of the county is that of the sword fern. Last week O. K. Howard of Seio shipped 600 bales of these ferns to Los Angeles, Calif., and the previous week he shipped a carload to New York City. Every fern has to be picked by hand and trimmed, giving quite a number of people work.

Filbert Growers Price Increased

NEWBERG, Sept. 12 (AP)—Prices for Newberg-Dundee area filberts will range from 14 to 18 1/2 cents a pound this year, an increase of one to one and a half cents, Yamhill county packing firms announced today.

The harvest will begin next week. Curtailment of European imports and a comparatively small hold-over tonnage make the market outlook favorable.
