A community washing machine has changed the laundry problem for five women of Guilford county, NC, says an informal report to FSA headquarters in Washington.

The five farm women bought this washing machine—a gas engine powered model—with a community service loan from the farm security administration. They had seen their husbands and neighbors use tractors, hay balers, harvesters, and other equipment bought cooperatively, and decided to follow the example. Now every day is washday. One woman washes on Monday, one Tuesday, and so through Friday. If someone can't keep her date with the machine, she trades time with a neighbor or uses the free day, Saturday.

The FSA loan is repayable over a five-year period at 3 per cent interest. Such loans are available only to low-income farm families who cannot get credit elsewhere. Groups of needy farm women have bought other types of equipment with the community service loan—particularly pressure cookers for canning meats and home-grown produce from gardens and orchards.

# "CRISCO CAKES are LIGHTER!"

vote housewives 4 to 1

Yes, New "Sure-Mix" Crisco gives you 3 new exclusive cake advantages no other shortening can give you

Do you want your cakes to be lighter, smoother-textured and better-tasting than ever before?

Well then—read the amazing cake results gotten by hundreds of women who tested "Sure-Mix" Crisco in their regular cake recipes...

Independent investigators chose these housewives at random in 20 cities from Coast to Coast—gave them "Sure-Mix" Crisco and asked them to bake cakes and compare results with their usual shortenings.

The vote was 4 to 1 for "Sure-Mix" Crisco cakes compared with all the other shortenings. Yes, actually, when these women reported which shortening they preferred, they said: "I got lighter cakes with Crisco!"—"Smoother-textured cakes!"—"My family liked my Crisco cakes better!"

Why Crisco is different! An amazing discovery—it's patented—makes New Crisco act differently. Crisco batters are satin-smooth—don't tend to separate or look "curdled" the way batters made with other shortenings often do.

Crisco cakes are consistently up to 15% lighter and higher (depending on type of cake) than cakes made with any other home shortening we know of.

Better Flax and Fried Foods with Crisco—In the nation-wide home-cooking tests women voted 4 to 1 for flaky pies and better-tasting fried foods with Crisco.

vanilla 1/4 cup milk

Blood Crisco, eggs, salt, vanilla and eggs all together. Add cooled cocoa mixture. Beat well. (See how smoothly all combined with New "Sure-Mix" Crisco!) Stir flour with baking powder—add alternately with milk. Bake in two 8-inch "Crisco" layer pans for 35 minutes in moderate oven (350° F.).

**BEST BREADS—BETTER COKE:** Cook over boiling water: 1 1/2 cups water, 1/4 cup water, 2 eggs white, baking powder, 1/2 cup sugar, 1/2 cup flour. Remove from heat; add 1 teaspoon vanilla; beat till stiff. Beat bottom layers and cover cake. Before icing set, melt 1 square of unwrapped chocolate and decorate cake with chocolate swirls.
