### Health Exams Are Given at Liberty

LIBERTY—On November 13 and 15 Dr. V. A. Douglas, county health officer, conducted a health clinic at the Liberty school. The first grade and all new pupils were examined.

Seventy per cent of the first grade children had been immunized against diphtheria before entering school and 60 per cent against smallpox. A total of 61 were examined with eight parents present for the children's examinations.

The record shows defects found include malnutrition, 8 per cent; faulty vision, 16 per cent; defective hearing, 16 per cent; nose and throat, 24 per cent; goitre, 4 per cent; bad teeth, 42 per cent; weak heart, 1 per cent.

Eight children or 13 per cent were free of defects. Corrections included 10 diphtheria immunizations, nine for smallpox; tonsils removed 12; teeth corrected 8; tuberculin tests 21.

Volunteer workers were Mrs. C. W. Stacey and Mrs. A. J. Schalk. Preliminary work and supervision was done by Principal J. L. Wait and nurses Miss Hill and Mrs. Skinner.

Correction of defects and the further immunization of children against smallpox and diphtheria are yet to be completed.

### Bulb Harvest Is On in Gladiolus

CLEAR LAKE—An agricultural enterprise of more than ordinary magnitude is the 31-acre gladiolus planting on the Charles Simon ranch near the Willamette river in South Prairie.

John Majeski of Grants Pass transferred his plantings last spring from Grants Pass to this section. In addition to the 31 acres in this neighborhood, he has four acres near Mt. Angel. An overhead sprinkler system was installed for irrigation, the water being taken from a well dug for that purpose.

In addition to the large amount of labor required to plant and cultivate the field a crew of from 25 to 100 men have been employed since the seventh of October digging and storing the corms.

Majeski has used local labor in so far as men were available so that a large amount of money has been distributed among the farmers of this district. If the weather remains favorable Majeski states that he can finish digging in a week or 10 days.

After the gladioli are all delivered to the warehouse they have to be fumigated and graded and packed for shipment. This will require the use of a large crew so that part of the diggers will have employment for several weeks after digging is finished.

### Red Cross Committee Named for Liberty

### "Strictly Private" By Quinn Hall

Dear Mom:-  
I'm learning things in the army, mom, like if there wasn't no extra action in the kitchen sector why Thanksgiving'd be just another day on the calendar.  
P.S. At that, mom, we got plenty to be thankful for, huh?  
your son
