Englishman Writes That "Fat Dames" Fill Raid Shelter

SALEM HEIGHTS—James Bradshaw, student in the eighth grade of the local school, recently read a letter from his grandfather in Birmingham, England, to his fellow classmates.

The letter described the screaming of the air raid sirens and the hooting of the "Robbies" to take cover. When the alarm was sounded, he and his family would run for the shelter of a tank in the park that was left from the last war. The letter went on to say that there were so many "fat dames" in the tank that he was crowded out. In looking for a new shelter, he hit upon the idea of crawling into the muzzle of a huge cannon in the park. His grandfather added that he liked it better because he could see out and act as a "spotter."

So far, he wrote, he had not received a scratch "except from some ladywood fleas which had found shelter in the big gun."

He said that it was hard to tell the women from the men as they all dressed so much alike. He concluded with: "Here they are again. I can hear the whistles and I am off for the big gun."
