

Papers Entitled To Roadside Box Must Carry Only Name and Not Advertising Rules Van Winkle

It is not a violation of law for newspaper publishers to maintain within the rights of way tube boxes in which to deposit newspapers for subscribers, provided printing matter on the tubes is restricted to the names of the newspapers and there is no advertising matter, Attorney General I. H. Van Winkle ruled here yesterday.

The opinion was requested by the state highway commission.

In a letter to Attorney General Van Winkle the highway commission said it was contemplating the erection and maintenance of uniform posts, on which newspaper receptacles may be placed

by the various newspaper publishers to accommodate their subscribers.

The commission said this would prevent cluttering up the highways and give them the appearance of fence rows.

Van Winkle held that the names of the newspapers on the tube boxes are not advertising.

Hopes to Abolish Private Parking

Senator Charles Childs, Albany, here yesterday said he probably would introduce a resolution at the 1941 legislative session prohibiting state officials from parking of exclusive space for their own automobiles near the capitol building.

Childs said virtually all of the most desirable space was occupied by state officials' cars with the result that other persons were compelled to park some distance from the capitol building.

Telephone Money Highest, 9 Years Line Mileage in Oregon Increases in 1939; Taxes Are Down

Operating revenue of class A, B and C telephone companies in Oregon in 1939 aggregated \$10,057,034.45, an increase of \$166,642.30 over the previous year, according to a report released by the public utilities department yesterday.

Toll revenues showed an increase of \$236,900.10 over 1938, causing the revenue received from this type of service to be the largest since 1930. Total operating revenues was higher than any year in the preceding nine year periods, as were the total revenue reductions.

Taxes applicable to the state of Oregon declined from \$1,427,

\$66,78 in 1938 to \$1,326,092.78 in 1939, a decrease of \$91,478.98 or 6.41 per cent. Oregon taxes represent 15.50 per cent of the total revenue deductions. For every dollar received in 1939, approximately 13.29 cents was paid in taxes, a decrease of 1.14 cents from 1938.

Class D telephone utilities account for only 1.80 per cent of the total revenue for all classes within the state. Total revenue increased \$5652.73 or 4.47 per cent over 1938, while revenue deductions increased \$4299.88, causing

an increase in net operating income of 1352.85 or 16.22 per cent over 1938.

There was a material increase in line mileage in 1939 when compared with 1938.

300 on Union Rolls

PORTLAND, Dec. 12 (AP)—About 300 members were on the rolls of the AFL union for Western Union Telegraph company employees, installed here this week, said D. E. Nickerson, state federation of labor president.

Revenue Exceeds Hundred Thousand

Oregon's total revenue from all sources during the biennium starting July 1, 1941, has been estimated at \$109,570,958, of which the federal government will contribute 15.4 per cent and the counties 4.5 per cent, State Budget Director David Eccles, announced yesterday.

The state funds will total \$87,705,296 of which \$17,745,880 will be raised from taxes and fees for general purposes, \$41,126,474 from taxes, licenses and senior special purposes, \$5,449,980 from revenue from state-owned enterprises, and \$180,169 income from investments.

The federal government's contribution will aggregate \$16,884,373, compared to \$4,930,689 by the counties. The counties are repaid their money.

Representative to Come on Crutches

Representative J. H. McCloskey, Goose county, will "ride" to the 1941 legislature on crutches, he wrote Rollie Southwick here yesterday.

McCloskey, injured in an automobile accident, spent more than 25 days in a hospital. He returned recently to his home at Norway.

One of his legs was fractured in the accident.
