Kay Kyser Is Bogey Hunter

Karloff, Lorre, Lugisi Provide Thrills in Melodyrama

Kay Kyser, the Ol' Professor, surrounds himself with three of the screen's foremost bogeymen and a big cast of film and radio talent in supplying the novelty entertainment of his new picture, "You'll Find Out," starting today at the Elsinore theatre and running through Christmas.

In this musical mystery melodyrama Peter Lorre, Boris Karloff and Bela Lugosi supply the menace that upsets the romance of Helen Parrish and Dennis O'Keefe and terrorizes Alma Kruticularly by Ginny Simms, Harry Babbit, Ish Kabibble and Sully

Between broadcasts of the College of Musical Knowledge in a radio studio, Kay Kyser and his band fill an engagement to entertain at a big weekend birthday party in an old mansion in a deserted location. Seldom did gaiety have a more eerie setting than the frantic edifice built by a now dead archaeologist and occupied by his spiritualistically inclined sister and his pretty young daughter.

Kyser and his pals are affected by the gloomy atmosphere and by the grim personalities of Saliano, a fake medium, and of Judge Mainwaring, the family lawyer. They are even more effected when they learn that several mysterious attempts have been made on the life of the daughter. One of these attempts nearly kills Ginny

Kyser and the band decide to leave the spooky place, but a bolt of lightning blows up the bridge which is the only exit from the estate. They pin their hopes on Professor Fenninger to solve the mysteries they meet around every gagd by the heroine to expose Saliano's crookedness to her aunt. Unfortunately, the Professor is an imposter also, and is in league with the Judge and Saliano to kill the girl and thus assure themselves of continued income through their elderly victim, the England Is Place

How the three Bad Humor Men endeavor again and again to get rid of the girl, how Kyser stumbles across the secrets of Saliano's mediumistic tricks, and how the band leader manages to save the whole party from annihilation after a series of fan-
