IN A CIGARETTE

THE SMOKE'S THE THING!

THE SMOKE OF SLOWER-BURNING CAMELS GIVES YOU

EXTRA MILDNESS, EXTRA COOLNESS, EXTRA FLAVOR

AND—

28% LESS NICOTINE

than the average of the 4 other largest-selling brands tested—less than any of them—according to independent laboratory tests of the smoke itself

YES, the smoke's the thing! After all, you don't get anything from a cigarette until you've lighted it...until it's burning. And there is the secret of an advantage Camel smokers have enjoyed for years. For Camel's costlier tobaccos are slower-burning.

Slower-burning for more coolness and mildness—for Camels are free from the excess heat and irritating qualities of too-fast burning. Slower-burning for more flavor because slow burning preserves tobacco flavor and fragrance.

Now Science confirms still another advantage—Camel's slower burning means less nicotine in the smoke—less than any of the four other largest-selling brands tested... 28% less than the average!

Yes, when you measure the pleasure of a cigarette...the smoke's the thing. Make Camels your steady smoke and enjoy all the advantages that only Camel's slower burning...costlier tobaccos can give. There's even an economy advantage (see left).

By burning 25% slower than the average of the 4 other largest-selling brands tested—slower than any of them—Camels also give you a smoking plus equal, on the average, to 5 EXTRA SMOKES PER PACK!
