Stock Market Takes Drop

Motor, Steels Weaken, Volume Slackens and Traders Are Timid

NEW YORK, March 28-(AP)-The stock market today gave up all of its rallying advantage of the preceding session without any particularly adverse news to account for the backslide.

Slightly lower tendencies developed in the list after an early attempt to extend Thursday's upturn met with half-hearted response. Motors and steels weakened in the third hour and closing recessions ranged from fractions to nearly 2 points. There were few wider dips.

The one encouraging straw in the retreat was the slackening of volume. Transfers totaled 442,610 shares against 551,190 the day before. The Associated Press average of 60 stocks was off .2 of a point at 41.4, thus eliminating yesterday's advance of this com-

Motors were timid throughout. While this week's automobile production was up slightly over the previous week, there were warnings that a drop in output was likely if factories were terials from strike-bound accessory concerns.

Rails, generally, again wer buoyed by the brightening traf fic outlook

Universal Pictures preferre got up 3 on a few transactions Paramount Pictures was up 1 after posting a new top for th year. Others emerging with modest improvement were Loft, West inghouse, International Harvester and Texas Corp.

By Quinn Hall Wheat Prices Hit New High

Legislation, Balkan News Raises Prices to Season's Best Level

CHICACO, March 28-(A)-Enlarged investment and commercial buying lifted wheat and corn prices to new highs for the season today and to the best general level since last May, when many commodity values collapsed with the German westward invasion.

as 138 at the peak of the buying movement. May wheat touched 90%, highest in ten months for any contract, except for the 9034 top touched by December futures. In the spot market best grades of wheat sold as high as 951/2 while corn was around 70 cents. Buying was inspired by progress of legislation in congress calling for increased basic loan rates, the critical situation in the Balkans and strength of other commodities. Despite heavy profit taking in late dealings, due to White Leghorn weakness of securties and prospects of increased loan redemptions, wheat closed 11/8-17/8 higher than yesterday, May 90-8978. July 88-8776.
