### Vitamin Content High in Berries

SILVERTON HILLS—Strawberries from the Silverton Hills district can now answer the question "What Have You Got That I Haven't?" Many more milligrams of vitamin C is the important thing the Silverton Hills strawberries "have got" that other strawberries seem not to have.

This may not mean anything to the uninitiated but when it is reported that the highest test on strawberries from California shows but 87 and that the local grown berries show 110, the information begins to gather a meaning.

The information has come from Dr. G. C. Bellinger, superintendent of the tuberculosis hospital at Salem. It was passed on to the local growers through the chamber of commerce bulletin at Silverton.

by JOHN CLINTON

Of such stuff is one of my friends made. He went to college, and he knows everything. Well, in line with my well-known policy of recommending New 76 Gasoline as first-aid to people who hate traffic-driving, I recommended some to this chap.

"Aw sure, that's a lot of Malarky," he says. "All gas is alike!" I tried to get him to buy a tank full, but he wouldn't do it! And he hasn't, yet! So this is no standard "Success Story!" But it does have a moral.

If you've never tried New 76 and if you hate to drive in traffic, and if you're not a professional skeptic, then I've a proposition to make. Wait till your tank is almost empty, then have it filled with New 76, and try it, yourself, in your "favorite" traffic.

I believe if you do, you'll thank me for suggesting it. Because New 76 is especially refined for traffic driving. Observe how it whips you away from signals, how it helps prevent stalling right under the nose of the cop on the main corner, and how beautifully it performs at slow speeds, as well as high.

And we'll go over to my skeptical friend's house and go "yah, yah, yah," under his window.
