**WPA Labor Question not Settled, Bike Ordinance Drawn**

WOODBURN—The Woodburn city council took definite action on the Hardcastle avenue improvement project at their meeting Tuesday evening. City Attorney Gorman was instructed to draw up a resolution for adoption at the council meeting April 15.

The question of WPA labor has not been assured but city officials who have inquired into the matter expressed themselves as convinced the work would be done by WPA labor. The project is to cost not more than 75 cents per front foot.

A resolution will be prepared to apply to Gatch street also. An ordinance to place a curb on boys and girls riding bicycles on sidewalks was ordered drawn by the city attorney. Delinquent water bills were discussed.

### War Is Subject Of Discussion At Forum Meet

SILVERTON—R. I. Lovell of Willamette university discussed "America's Relationship to the War" at the forum at the high school Wednesday night. He was introduced by Harold Davis, principal of the school. Members of the chamber of commerce served refreshments at the school cafeteria.

Dr. Lovell said that in his opinion America had no obligation in Europe. "We gave France and England a great opportunity which they missed. But whether we like it or not our congress has committed us to war in so much as we are sending every material assistance possible."

Dr. Lovell objected to President Roosevelt's being called a dictator inasmuch as "he was elected three times by the majority of the people and that at the end of the four years he will have to be elected again by the majority of the people if he is to continue to be president, and if the majority of the people do not wish him to keep that position they may vote him down."

When, during the period of questioning which followed his formal talk, Dr. Lovell was asked what he thought of the recent seizure of foreign ships in American harbors, he said that he had been unable to justify it so far in his own opinion, but he would suggest that the people withhold judgment until they knew what it was all about.

Mr. Davis announced that Dr. R. Franklin Thompson would speak on April 16 at the school.
