Stocks Drop After Rally

Early Activity Brings Few 1941 Highs but Gains Are Lost

NEW YORK, April 4.-(AP)-The strong rallying trend of Thursday wilted in today's stock market, just as on similar occasions in the past several months.

There was a short lived show of activity on the upside at the start. Early gains of fractions to a point or so for rails and steels were reduced or cancelled at the close. In the forenoon a number of new 1941 highs were posted. The Associated Press average of 60 stocks was unchanged at 42.3. It was a relatively broad market, 789 individual issues being traded. Of these 307 were up,

246 down and 236 unchanged. Dwindling of volume on the stemming of the recovery tide provided a little encouragement for bullish forces. Transfers totalled 704.920 shares against 940,-560 the day before which was the largest turnover of the year to

Stocks getting into new high ground for the year and retaining modest advances at the finish included US Rubber, Consolidated Oil. Southern Pacific and the Preferreds of Santa Fe and Pere Marquette.

By Quinn Hall Wheat Soars, Then Skids

Buying Stimulated by Security Strength, Federal Program

CHICAGO, April 4.-(AP)-Wheat prices soared almost two cents in the first few minutes of trading today and then spent the remainder of the session swinging over a wide range, dipping at times as much as 1/2 cent below previous closing levels.

May wheat reached 93%, highest in 10 months, and new crop contracts came within fractions of the season's peaks. Buying was stimulated by various phases of the government program, including stimulation of livestock production which would affect grains indirectly, and likelihood of adoption of marketing quotas along with higher loan rates for the new crop. Strength of securities and sharp gains in the hog and lard markets, with government purchases of lard and pork products substantial, were additional bul-

lish factors. Profit taking and hedges against For the last eight months, Mrs. increased offerings of loan and free wheat and receipt of good moisture over much of the winter wheat belt accounted for the selling. Wheat closed only 3/8-7/8 higher than yesterday, May 921/4-36, Air Reduction .. 377's Douglas Aircraft 74 Phelps Dodge 291/4 July 91-911/8. Al Chm & Dye 15712 Eastman Kodak 136 Proc & Gamble 551/8

Still Praying

Thressa Zazula

Thressa Zazula, 44-year-old mother of five children, has virtually lived in St. Elizabeth's church in Detroit, praying almost constantly. Removed to a hospital for observation, Mrs. Zazula told reporters that "at night I sleep on a church bench. My daughter brings me food. I am content. I just want to stay here." Father Herbert Weier, pastor, said that no amount of persuasion could force her to leave.

Wool in Boston

BOSTON, April 4—(AP)—(USDA)—
Domestic wools were mostly quiet on
the Boston market today. Inquiries
were being received occasionally but
demands lacked urgency. Asking prices
on domestic wools were mostly steady
especially on spot wools or on wools
that may soon be available. Some of
the contracts for fine territory wools,
however, were being offered at prices
slightly below the recent extreme asking prices. The finer grades of South
American wools were moderately active at steady prices.
