A few words on the reading of mystery stories, together with a list of some of the best authors, is deserving of our attention this week. Public librarians have long recognized and supplied the public demand for this field of literature because they have believed that the reading of mystery stories is one of the best remedies for mental fatigue. Such works provide perfect relaxation and ideal entertainment.

Publishers' Weekly, a book publisher's trade journal, furnishes interesting facts and figures based on a survey of mystery reading and tastes conducted by the Columbia University press among 2200 readers of its literary magazine "Pleasures of Publishing." Most of the regular subscribers to this magazine were found to be mystery story readers. It was found that such readers read at least one mystery a week. Eighty-seven per cent of the women read mystery as against seventy-five per cent of the men, and the women read more crime novels per month than the men. This survey seems to bear out observations made in Salem that women are the most avid mystery fans.

In the Columbia university press survey women authors led the popularity poll among both men and women readers. Favorite authors, in order, were Dorothy Sayers, Agatha Christie, Arthur Conan Doyle, Nagio March, Eric Stanley Gardner, Ellery Queen, Marjorie Allingham and Rex Stout. Favorite detective characters were Lord Peter Wimsey (Cayers), Hercule Poirot (Christie), Sherlock Holmes (Doyle), Perry Mason (Gardner), Nero Wolfe, (Stout), and Albert Campion (Allingham).

Just why women seem to dominate the mystery field is left to one's own conclusion. Perhaps it is a matter of greater imagination and natural inclination for intrigue on the part of certain women that makes them excel in this kind of writing. Men authors still dominate the field of so-called tough mysteries, but it is seldom that such stories ever become really popular. Another conclusion or observation is that mystery novels only rarely reach the best seller list among all classes of literature. At the library we know that while mystery readers form only a small part of the reading public, there is no doubt they are the most difficult to please, yet the most enthusiastic supporters once they discover authors to their taste. Just as "ball fan" typifies an enthusiastic follower of baseball, "mystery fan" aptly denotes the real mystery story reader.

Daughters of Union Veterans will hold their annual widows and wives tea at the home of Mrs. Jack Cutler at 2270 Maple avenue on Thursday.

ELECTED to head the Veterans of Foreign Wars auxiliary is Mrs. Walter Wickert, pictured here. (Kennell-Ellis photo.)

New exhibit in the first hall galleries is the show of paintings by Center students from the classes of Virginia Darce of Portland, staff instructor in painting. The subject matter includes, portrait, landscape and still life, all of which are most individually handled.

Of perhaps greatest interest are the portraits, in oil, water color, tempera, and the portrait sketches in crayon and charcoal. They all show advancement over previous work done by the same students of the adult art class.

In connection with the exhibit, the Tuesday radio program will be devoted to an informal round table discussion on the work of the Art Center painting class, Miss Darce, and Miss Brenda Glass, student in the painting class will be interviewed by Mrs. Marguerite Holcomb and Mrs. Bron Leibes, members of the ceramics class at the center. The broadcast will commence at 2:15 p. m. over KSLM.

The spring garden show which is being held at the chamber of commerce, Saturday, Sunday and Monday under the sponsorship of the Salem Garden club, will be replaced Monday at the Art Center where it will be displayed through Tuesday in the galleries.

A program, planned for the joint meeting of the American Legion and the auxiliary on Monday night, is a "Gay 90s Review" given by the 9th grade students of Miss Margaret Simms at Parish Junior high school.
