

Business MUST Be Good in Salem and Vicinity

Crew of Gevurtz Furniture company specializing in General Electric appliances unload another carload of 1941 GE ranges: Reading from left to right, Eugene Hough, delivery man; Ross Rowell, shipping clerk; Linn Martin, appliance service man; Ernest L. Crockatt, Gevurtz Furniture company appliance department manager; and Ray G. Moon, in charge of General Electric appliance department of the Salem store. Complete General Electric kitchens have recently been installed at the Portland, Salem and Marshfield stores of the Gevurtz Furniture Co. and an attendance of more than 500 was recorded at the General Electric cooking school held in the Salem store a week ago according to W. D. Gwynn, manager of the Salem store.

Club Hosts At Dinner

SILVERTON—The Lions club auxiliary will be hosts at a May day basket dinner at the Dr. A. L. V. Smith cabin on the Abiqua today, beginning at 1:30. Helge Rue, who recently observed his 83rd birthday anniversary, reports he is one of eight brothers and sisters living, whose combined ages total 650 years. Four of his brothers live in the Silvertown community and were able to observe his birthday with him. These are Ole, S. O., K. O. and G. O. Rue.

SILVERTON—The mother-daughter banquet sponsored by the Missionary society of the Christian church will be held Monday night with Mrs. L. R. Neal as mistress of ceremonies. The boys and the men of the church will serve the supper.

Dairy Figures in Farm Exchange

BETHANY—Mr. and Mrs. Halvor Mikkelsen and son, Calvin, have exchanged their farm property here for a larger dairy in the Boardman community. About 50 dairy cattle figured in the deal, it is reported.

Harry Walker, has leased the Harding hop yard here, according to report. The Walkers, who recently lived in the Evergreen district, have moved to Silvertown.

Milk Problems to Be Subject Of Three Day State Seminar

Milk problems as related to sanitation law enforcement will feature the entire first day of the three-day seminar scheduled to open May 12 by the foods and dairies division of the state department of agriculture. Division Chief A. W. Metzger is in charge. This is the second annual session of all district men, called to assure uniformity and greater efficiency in enforcement of the division laws.

Director of Agriculture J. D. Mickle will open the conference. Guest speakers on the milk phases of the study will include: V. C. Morgan, chief, city of Portland division of milk inspection, on "Milk Inspection;" Eugene Chadwick, Astoria city milk inspector, on "Sanitation of Barns and Milk Houses;" Dr. G. H. Wilster, professor of dairy manufacturing, Oregon State college, on "Sanitation of Dairy Products Plants;" and Charles Austin, Medford city milk inspector.

Brazier Small, Salem, department attorney, will give a paper on "Laws and Evidence" as a feature of the second day's study, and particularly pertinent will be consideration of the new Oregon food law, led by Deane Patterson, chief chemist for the department. W. C. Elford, chief of the Portland city division of sanitation, will speak on this work the third

day. Other problems will be presented by department officials and district representatives.

Rape Seed In Demand

DALLAS—Indications are that rape seed is going to be very much in demand it requests for prices on seed and information on the possible crop outlook can be taken as a criterion.

Numerous requests have been received by W. C. Leth, Polk county agent, for information relative to supplies and prices on this crop. Several growers have applied for certification inspection on rape plantings in order to take advantage of whatever price advances may come on certified dwarf Essex rape.

Because Mr. Leth's office is receiving numerous requests for seed supplies, he suggests that anybody having rape plantings that they expect to save for seed, make application for certification and also list such plantings with his office so that information can be given growers relative to prices and possible market.

Most certification work done in the county has already been completed. However, it may be possible to secure an inspector from the farm crops department to make additional field examinations should there be requests. Such requests would have to be made soon, according to Mr. Leth, because it is necessary to examine the blossoms in order to make satisfactory field inspections. Further information may be secured from Mr. Leth.
