Queen of Strawberry Festival To Be Crowned on Friday

LEBANON—The strawberry fair festivities have begun. Monday a group of strawberryrippers presented a crate of Lebanon grown berries to Governor Sprague and invited him to crown the queen on the first day of the fair, June 6.

Friday night the queen's ball will be held. At that time judges from away will select the queen from among the princesses who have been chosen by the nine high schools of the county. Buttons advertising the ball are being worn by friends of the princesses in all parts of Linn county and indications are that there will be a large crowd to welcome the royal court of 1941.

All but the perishable ingredients have been assembled for the biggest strawberry shortcake in the world. Every year a cake large enough to serve more than 10,000 persons is made in one of the Lebanon bakeries. Decorated with cream and strawberries and then covered with cellophane, the cake is the center of interest until after the main parade the first day of the fair, when it is served. Every comer gets a piece with berries and cream, free.

Exhibits as well as entries in the parades show the main industries and agricultural products of the community and a program is arranged to provide entertainment both days, culminating in a dance Saturday night in the Legion hall, massed bands in concert and fireworks.

THE SPIRIT OF 76

by JOHN CLINTON
Mrs. C. Rags, our airdale, and I went for a drive over the week-end. But we didn't have much fun. The Hispano-Plymouth was in an ugly mood. It groaned, complained, squeaked and steered hard. So I growled at Mrs. C., she growled at Rags, and Rags just growled!

Yesterday I left the car at the Union Oil station for a Stop-Wear Lubrication — you know, that's Union Oil's special treatment for 1000-mile job that every one, in our town at least, is talking about.

Oh boy! When I got the Hispano-P back again, it almost didn't hand springs on the way home! Don't tell me that cars can't think! The car did everything but actually say: "Look, John, let's go for a big ride — I wanna go!"

You see Stop-Wear Lubrication is different on 3 counts. First, you can feel the difference in the way the car shifts, steers and rides. Second, you can hear the difference in the way it runs. And third, you can see the difference. The Minute Man dusts it off, shines up all the glass, dresses the tires and running boards and cleans out the inside.

They even check and tink with such unusual and easily-overlooked items as the choke, throttle, purifier, air-filter and so on. So, if your car has the screaming-memories, try Stop-Wear Lubrication. You'll be delighted!
