

Water Rate Change Set

Summer Charges Take Effect in June; Bike Ordinance Adopted

WOODBURN—At the meeting of the city council held in the city hall Tuesday it was voted to introduce the summer water rate beginning with the next meter readings, which will be late in June.

The council also adopted a bicycle ordinance, which goes into effect immediately. The ordinance provides: Every bicycle operated in Woodburn at night must have a lamp in front visible for 300 feet, a mirror or lamp behind visible for 200 feet. Not more than two persons may ride a bicycle at one time. No bicycle may be towed. Two or more bicyclists riding in company must go in single file and not abreast.

Bicycle riders shall do no racing. No bicycle shall be left standing in a place where it interferes with traffic of the street or sidewalk. Bicycles shall not be ridden on sidewalks adjoining paved streets, an exception to this rule is made in case of mail or paper carrier.

In case of the ordinance being violated the bicycle shall be impounded in the city hall for such period of time as the city recorder shall determine and designate.

A study was made of two resolutions in opposition to street improvements. One of these was against the proposed improvement on Hardcastle avenue, the other against having a curb put in on Gatch street.

The Hardcastle avenue petition did not contain signatures of the majority of property owners affected so the resolution was formally rejected. In the case of the Gatch street petition, it was decided to obtain a complete and authentic list of names of property owners, so as to prove definitely whether or not there are a majority of names on the petition.

Saturday has been proclaimed as Poppy day in Woodburn in a proclamation issued by Mayor Austin.

One Goes up—Seven Stay Home

"Ground Crew" like the night-working mechanics shown in the picture above tuning up the "tanards" of a training plane at Randolph Field, Texas, are busy night and day at Army Air Corps flying fields throughout the country. They keep the planes of our rapidly-expanding Army in top condition. The Army figures that, to keep one plane in the air, seven men such as these are required to perform their expert tasks on the ground. The Army has places for more of these capable young men.

Little Replays 1940 Open to Lead Goodall

By BILL BONI

NEW YORK, May 22—(AP)—They staged the 1940 US open golf play-off that might have been today, and when it was over Lawson Little again and still was the champion.

Little, with a steady two-under-par 68 over the tough Fresh Meadow Country club course, finished the first round of the \$5000 Goodall round-robin 4 up on Gene Sarazen, whom he beat for the open title in the play off at Cleveland last June, and 6 up on Corporal Ed "Porky" Oliver, who would have been in that play off if he hadn't been disqualified for starting his final round ahead of schedule.

This was the main match of the five that opened the four-day Goodall competition, and in Little's round it produced the best golf of the day. The big San Francisco was belting his tee shots with authority and good control, laying his seconds up there nicely, and putting as if there was a groove running to the cup.
