

Lamb Show at Scio Today

Variety of Exhibits and Contests Feature Event

SCIO—More and better lambs, bigger fleeces and improved quality, marvelous intelligence of sheep dogs in handling their flocks—these are the outstanding predictions of many who are in touch with well rounded plans for the seventh annual Linn county fat lamb show slated for today at Scio.

Corralling contests in which trained dogs display near-human activities and reasoning bid fair this year to eclipse all previous programs in this respect, the show management anticipates.

Shearing contests, which attract many competitors, will be an outstanding feature of the exhibition again this year. List of premiums indicates wide scope in exposition ramifications. Approximately \$200 will be used in this feature. Quality rather than quantity is to rule according to plans of the management.

The general committee consists of E. L. Donahue, chairman; Geo. J. Patry, Wilbur Funk, J. D. Densmore, sr., and Norman Bernier, secretary-treasurer. Mrs. Hazel Pague is in charge of all wool products exhibits, and Mrs. Geo. Patry is parade chairman.

At 9:30 a. m. the parade will be marshalled at the high school building under strains of a 40-piece band from Jefferson. Usual course through the principal sections of the city will be followed, disbanding at the point of forming.

Spinning and weaving of wool will be demonstrated. Amplifiers will herald proceedings at intervals during the day, and it is planned to have motion pictures for subsequent presentation on countless screens throughout the country.

Judges of sheep and wool include authorities, and special prizes have been arranged aside from regular premium list features.

Selection of Manager Set

Many Applications Come in for City Job to Be Filled in June

SILVERTON—Mayor Reber Allen reported late Friday that a permanent city manager will probably not be selected for Silverton until the regular meeting of the city council to be held on June 2.

A number of applications have been received, said Mayor Allen, with many coming in since the city suit, which had been pending for several months, was dismissed in circuit court Tuesday. Judge Hendricks, it will be recalled, declined to pass directly on the alleged invalidity of the new charter providing for the city manager form of government and the suit was dismissed from court.

These applications must be studied and elimination made of those who, by virtue of charter rulings, are not qualified for the job, Mayor Allen stated. The final selection will be made at a regular meeting of the city council, he added.

The case in question was filed some months ago by Dr. A. W. Simmons and A. R. Eastman, water commissioners under the old charter, who contended that the election held in May, was illegal as failure was made to provide ballots for other than registered democrats and republicans. The election provided for a city manager form of government and dissolved the water commission, which had been in charge of the water department with its funds for a number of years. The commissioners, in their court contention, stated they felt that without bona fide authority to vacate the office, they might incur personal liability in future actions of that office.

The new charter, adopted at this election, provided for the appointment of a city manager on or before January 1. But owing to the unsettled condition of city affairs, only a temporary manager could be obtained. As Elgin McCleary, who has been water superintendent for the past several years, was familiar with city affairs, he was asked to serve. McCleary, however, cannot now be reappointed to the permanent position, Mayor Allen explained, as the new charter provides that the manager must be a non-resident of the city, and that he have at least one year's experience as city manager.

Mr. McCleary, who has also had the supervision of a new water project, street improvements and worries over collapsed bridges during the past few weeks, in addition to his regular work as water department superintendent and the added work of city affairs, has been urging the council members to obtain a manager as soon as possible. Members of the council stated this week that they would do so inasmuch as McCleary has been doing the work of three men during the past four months.
