Wheat Close Unchanged

Day's Fluctuations Caused by Loan Rate Rumors

CHICAGO, May 23-(AP)-Wheat prices dipped a cent a bushel in early trading, rallied almost 3 cents about midsession and then closed with little or no change compared with Thursday's finish.

The reason for wide fluctuations was attributed by grain brokers to an outburst of short covering and buying around 11 a.m. in connection with rumors that the president was preparing to sign the 85 per cent parity loan rate bill, legislation largely responsible for the strong advance the past few weeks. Later, when the buying was satisfied, the market resumed its drifting tendency due to the war situation and other disquiet-

Wheat closed unchanged to 14 lower compared with Thursday, July 971/2-%, September 983/4-5/8

Confidence Increases but Doubters Still **Hold Mart Down**

NEW YORK, May 23-(AP)-A little more confidence returned to the stock market but there still were enough doubters to keep any worthwhile rally from developing. While a few rails, rubbers, avi-

ations and specialties managed to edge forward, numerous leaders finished an apathetic session in the minus column.

The Associated Press average of 60 stocks was unchanged at 39.8. Volume dwindled to 261,580 shares, second smallest turnover since last August 26. It compared with 401,530 the day before.

Finishing with modest advances were Santa Fe, NY Central, Pennsylvania, Southern Pacific, Great Northern, Goodyear, Goodrich, Sperry, Aviation Corporation, Pan American Airways, Westinghouse, Commercial Investment Trust, National Biscuit, American Tobacco "B" and Corn Products.

Lower were Chrysler, American Telephone, Kennecott, American Smelting, Sears Roebuck, Allied Chemical, Dow Chemical, J. C. Penney, Standard Oil (NJ), Beneficial Industrial Loan and Western Union.

their purchases in February and by the middle of March it was reported that most breweries had taken their quotas. Relative to the production of hops in Belgium, no official statistics are available but trade estimates place the Belgian acreage in 1940 at 1700 acres and production at 950 metric tons. The qual-

growers having already sold prac-

tically all of the 1940 crop and much of the prospective 1941 out-

turns were not pressing for ad-

The New York hop market continued quiet but steady. Prices

were firm and unchanged, with

scme hand-to-mouth buying reported. Foreign hops were dull and nominal. On May 21, regular 1940 stocks were quoted to the trade at New York at 35c-37c: seedless at 49c-51c; 1939 stocks

at 25c-28c; seedless nominal; and 1938 stocks at 18c and 20c per

According to information recently received by foregn relations there appears to be little change

in the hop acreage in Germany

proper in 1941 except that all ar-

eas will be required to reduce

acreage the 15 per cent ordered

Under the order issued by the

Central Association of German

brewers, all hops unsold on December 5, 1940, were to be turned over to the German hop marketing association. After the middle of December, 1940, hop merchants are required to buy supplies from this

association while breweries buy

from the distributing firms. Neither the breweries nor the merchans

may buy direct from the producers. By the end of January, the marketing association had the balance of the crop on its hands and

also had taken over about 800

metric tons from the Alsatian hop

Earlier in the season there were
