

### Local News Briefs

**Freedom Short** — Six boys who escaped from the Oregon state training school for boys Wednesday afternoon and a seventh who escaped Wednesday morning were back in custody Thursday. The six were picked up near Woodburn early Thursday morning, and the other, Earl Bonney, was captured earlier. The other youths were Marston Dunham, Chester Garner, William Shaddock, Richard Tanner and Richard Watson.

**Beaverdam Excluded** — Beaverdam land, covered by a recent survey for road improvement in the Labish area, will not be taken for right-of-way, N. C. Hubbs, county engineer, told a delegation of residents of that area appearing Thursday before the county court. The land, declared extremely valuable for certain agricultural uses, would not provide suitable bed for a road, Hubbs said.

## THESE FLIES MUST HAVE 9 LIVES!

**NEXT TIME SPRAY WITH BIF—IT'S SCIENTIFICALLY MADE TO KILL FLIES DEAD**

**End fly spray troubles with Bif—** the effective spray developed by expert research chemists.

Don't confuse Bif with half-remedies! Bif was created after literally hundreds of tests with actual flies. From these tests came a new, powerful formula. Bif is quick and positive—you can depend on it. It's economical. It's safe. Stainless to walls, furnishings and clothing. Pleasantly scented. Try Bif. Whether you use it for flies, mosquitoes, ants or moths, you'll be surprised how truly satisfactory an insect spray can be!

**KILLS ALL FOUR.** Being effective against flies, Bif makes short work of lesser insects, including clothes moths. Mosquitoes hate it! To halt or prevent an "raid" safely, spray baseboards and doorways with Bif.

**COMPLETE FLY FARM** was established at Unocal laboratories for scientific tests which produced Bif's powerful High-Kill Formula.
