Stock Market "Sweetened"

Sugar Issues Assume **Buying Play While** Others Average

NEW YORK, Sept. 29-(AP)-Specialties, mainly sugars, took over the buying play in Monday's stock market while most leaders idled in extremely narrow territory.

Mild rising trends appeared in the list at the start but these were soon eliminated in many cases and it was a catch-as-catch-can session from then on. Closing gains and losses were principally of the fractional variety although several favorites advanced a point or so.

The Associated Press average of 60 stocks was unchanged at 43. Slack dealings throughout put the day's turnover at 397,960 shares, smallest for a full proceedings since August 29. It compared with 486,380 last Friday.

Revival of sugar company issues accompanied soaring world quotations for this staple. Most other commodities also pointed upward, Secondary rails improved in the bond depart-

General apathy of share purchasers, brokers said, was due mainly to the thought that, while few expected the 6 per cent profits ceiling advocated by the treasury to get anywhere, further restrictions on earnings as an anti-inflation measure, were more than a probability.

. U. S. Steel, Bethlehem and Republic were unchanged as this Ame week's mill operations were estimated up slightly.

Posting new 1941 highs were Central Violeta and Francisco Sugars, Skelly Oil and Gillette Safety Razor. In the rising classification were Manati Sugar. Cuban-American Sugar, American Sugar Refining, U. S. Rubber preferred, Douglas Aircraft, J. I. Case, Santa Fe, American Telephone, J. C. Penney, Eastman Kodak, Phillips Petroleum. Savage Arms, International Paper, Sears Roebuck and American Can.

In arrears were Western Union, Calu N. Y. Central, Standard Oil (NJ), Cana Texas Corp., Westinghouse, General Electric, Johns-Manville, Boe- Cate ing, Consolidated Aircraft, Sperry, Celan Anaconda, American Smelting and Ches Air Reduction.

Dow Chemical, ex-rights, hit another new 1941 bottom in the Cons morning but rallied for a net gain | Cons

Wool in Boston

BOSTON, Sept. 29—(AP)—(USDA)
—Trading in the Boston wool market
was mostly slow this morning. A few
houses were receiving inquiries for
graded fine territory wools at mostly
\$1.05-1.07, scoured basis, for wools of
good French combing length, and at
\$1.03-1.05, scoured basis, for short
French combing lengths. Sales were
not large, but were sufficient to maintain prices at levels quoted last wek,

Salway Peaches Sell PORTLAND, Sept. 29-(AP)-Salway peaches sold 80 to 85 cents box on the wholesale market Mon-

Tokay grapes from The Dalles were priced to \$1.25 lug. Northern Spy apples sold 90 cents to \$1 jumble box for large and to 60 cents for small stuff. Large size Kings were \$1 to \$1.25 box.

By Quinn Hall Hop Prospects Show Decline

Oregon hop prospects have declined slightly since September 1 according to the US department of agriculture. Indicated produc-tion in the state is 18,156,000 pounds, compared with 18,360,000 pounds indicated on September 1.

By the middle of September the crop was about three-quarters harvested, with picking of fuggles completed and harvest of early clusters practically done. Picking of late clusters probably will continue to around the end of the month. Rainy weather during the past two weeks has not greatly delayed harvesting but the added weight of rain-soaked vines caused some trellises to fall to the ground. In most cases these hops are

being harvested. In general, hops harvested to date have been of good quality, but the "dry-away" is somewhat greater than was expected earlier in the season. State yield figures are given as

follows: Oregon: Average yield per acre, 1930 to 1939, 937 pounds 1940, 1020 pounds; 1041, 890 pounds. Average total production from 1930 to 1939, 8,781,000 pounds; 1940, 10,080,000; 1941, 10,640,000 \$1.40 per crate. pounds

Washington: Average yield per acre from 1930 to 1939, 1771 pounds; 1940, 2080 pounds; 1941, 1950 pounds. Average total production from 1930 to 1939, 7,767,-000 pounds; 1940, 12,840,000, and 1941, 13,845,000 pounds.

California: Average yield per acre from 1930 to 1939, 1528 pounds; 1940, 1400 pounds; 1941, 1400. Average total production from 1930, to 1939, 8,781,000 pounds; 1940, 10,080,000; 1941, 10,640,000 pounds.

To Be Continued

"Grand circle" rail fares, now in effect on all railroads and scheduled to expire October 31, will be continued indefinitely, according to F. S. McGinnis, vice president in charge of passenger traffic for Southern Pacific.

McGinnis pointed out that the reduced fares, which allow travelers to go by rail from their home to both coasts and return at considerably less than standard rates, have proved unusually popular with the traveling public.

Stamp Foods Told For October List

Announcement of the US de partment of agriculture's blue stamp food list for October marks the 22nd month of food stamp plan operation in the state of Oregon.

The blue stamps are exchangeable at retail food stores for any of these commodities listed on the October list: Corn meal, shell eggs, raisins, dried prunes, hominy (corn) grits, dry edible beans, wheat flour and whole wheat (graham) flour, enriched wheat flour, enriched self-rising flour, self-rising flour, fresh pears, fresh apples, fresh oranges and all fresh vegetables, including potatoes.

Orange food stamps are also exchangeable at retail food stores for any and all foods for human consumption.

"Increased food consumption made possible through the food stamp plan guarantees a present and future domestic market to

The "grand circle" fares were tions at small expense, McGinnis The special fares include both

farmers everywhere," said M Louis Belangie, area supervisor of the surplus marketing administration. "In addition it helps the nation attain the defense goal of 'make America stronger' by placing healthful, nutritious foods in the homes of under-consuming families." It was pointed out that some

40,000,000 acres of "export" crops must find a domestic market.
