Getting them into the air
TIME IS DEFENSE
and we are "all out"
to help the Defense
program save time

From one aircraft manufacturer came this urgent call to the telephone company:

"Install telephones at once in hangar just moved across flying field—
"In Flight Operations Office—
"And for 250 engineers just moved to new building—
"And change Personnel Building equipment to an 'All Dial' basis!"

Rush orders from Defense plants are coming thick and fast these days. This manufacturer has since written to us:

"Having received 100% cooperation from all of the Telephone Company departments concerned, these projects were completed on schedule and with a minimum of inconvenience to our people."

The entire Bell System is giving "first call" to defense.
