

Grain Market Gains Short

CHICAGO, Jan. 20.—(AP)—Soybean futures were the only commodity on the board of trade that succeeded in going places Tuesday. In a late burst of activity, soybeans shot up as much as two cents a bushel to the highest levels in more than four months.

The May contract closed at \$1.91 1/2 to \$1.92, up 1 1/4 to 2 cents and the July at \$1.93 1/2, an advance of 1 1/2 cents. Revival of talk that a "floor" might be established under bean prices to stimulate production and the firm tone of cotton futures were responsible for the rise.

Wheat, corn and oats traveled aimlessly within a narrow range around the previous closing levels and each showed small net gains for the day, but rye was under pressure most of the session and finished about unchanged to 1/4 cent lower.

Final prices for wheat were 1/4 to 1/2 cent higher than the previous close, May \$1.30 3/4, July \$1.32-1.32 1/2; corn gained 1/4 to 1/2 cent, May 85 1/2-86; oats were 1/4 to 1/2 cent higher and lard was 2 1/2 cents a hundred lower on the January delivery to 5 cents up on the deferred.

Stock Market List Steady

NEW YORK, Jan. 20.—(AP)—Ralls took on more recovery fuel in Tuesday's stock market and, while the majority failed to go any distance, they at least helped steady the remainder of the list.

Gains ran to a point or so for favorites in the morning, with activity picking up at intervals. Extreme advances were later reduced in most cases and, at the close, numerous issues were about unchanged and minus signs were plentiful.

The Associated Press average of 60 stocks was unchanged at 37.8. Dealings slowed after mid-day and transfers for the full proceedings totaled 487,330 shares against 428,760 Monday.
