Deadline Set For Insurance

Applications Spring Wheat Growers Due Before February 28

The Marion county agricultural conservation office is prepared to accept applications for crop insurance on the 1942 spring wheat crop, W. M. Tate, chairman of the county committee, said Tuesday.

Spring wheat growers are urged to sign their crop insurance applications on or before February 28, which is the final date for filing spring wheat crop insurance applications in the county office.

Marion county already has 226 winter wheat applications filed for the 1942 crop. Tate believes this would indicate that the wheat growers of western Oregon are becoming just as much crop insurance minded as the wheat growers of eastern Oregon.

"They are becoming aware of the fact that wheat crop insurance is definitely an income stabilizer and also a means of additional. farm credit where credit is necessary for farming operation," he

A good many of the applicants for crop insurance are taking adwhich they may make their premium payment, which means they may have their premium deducted from their AAA farm payment, thus eliminating the necessity of paying cash for the amount of their premium.

Tate pointed out that under the all-risk wheat crop insurance program farmers can protect their wheat crop for 75 per cent of their average yield against loss from all unavoidable hazards.

Total losses are settled as soon as satisfactory proof is established that a total or substantially total loss has been sustained. Partial losses are settled at harvest time when the actual loss can be determined. Payments for indemnity claims are made without any unnecessary delay.

Grain Market Rallies Late

CHICAGO, Feb. 10-(AP)-Wheat futures prices put on an exhibition of rallying power in the final minutes of trading Tuesday with prices skyrocketing nearly two cents. The extreme gain in soybeans from the day's lowest was 4% cents a bushel.

May wheat contracts advanced from a low of \$1.27% to \$1.29%. or ¾ to 1 cent higher than Monday's close. The early break carried the May wheat conrtact to the lowest since January 2. All other grains advanced proportionately.

The final rally was led by soybeans following a report that the senate agriculture committee had voted approval of a bill designed to prevent the sale of surplus ag-

Minor Recoveries at **End of Session Aids** In Reducing Gaps

NEW YORK, Feb. 10-(AP) Stocks lost another round in the battle of war nerves Tuesday, leaders giving up fractions to a point or more over a wide front. At the worst declines ran to as

much as 2 points for numerous industrials, but minor recoveries near the close reduced some of i the gaps. The Associated Press 60-stock

average recorded a net decline of .6 of a point at 36.8 and at this level was within 1.4 points of the 1941-42 low. Despite sluggish periods transfers were more active than in recent sessions at 639.960 shares. Monday's volume was only 404,220. Stocks showing final losses included US Steel, Bethlehem,

Youngstown Sheet, Chrysler, General Motors, Montgomery Ward, Sears Roebuck, Case, Harvester, Boeing, Douglas, American Telephone, Texas Co., Santa Fe and Great Northern. Dupont fell 31/4 to a new low for the last year.
