

Stock Market In Recovery

Many Leaders Score Modest Advances as Turnover Is Small

NEW YORK, Feb. 13 (AP)—Generally bearish war news failed to disturb the stock market unduly Friday and many leaders managed to score modest advances.

Although buying was exceptionally light, liquidation was equally negligible and transfers for the day amounted to only 319,320 shares, smallest turnover for a five-hour stretch since last June 30.

The Associated Press average of 60 stocks was up .1 of a point at 36.8, first upturn in this barometer since February 4.

Steele improved in the face of bigger wage demands and rising costs. Rails ignored a more than seasonal decline in last week's freight loadings.

Better share performers included US Steel, Bethlehem, Chrysler, Santa Fe, Atlantic Coast Line, Great Northern, Southern Pacific, Boeing, Douglas Aircraft, Pacific Mines, American Smelting, Union Carbide, Du Pont and Owens-Illinois.

Allied Chemical dipped to a new 1941-42 low but ultimately came back. In arrears were American Telephone, Texas Co., Sears Roebuck, Caterpillar Tractor, Eastman Kodak, Kennecott and American Can.

Farm Group Slates Meet

Salem Parley Marks Anniversary of Loan Association

Arnold Anderson, regional manager for the federal land bank, Spokane, will be among the speakers at the annual meeting of the Marion County National Farm Loan association held at the American Legion hall, Salem, Tuesday, starting at 10:30 a.m.

Anderson will speak on the general outlook for agriculture under the stress of war times at this session, which will be in the nature of a silver anniversary. The associations were formed in 1917.

Members will be given a full accounting of the business of their association for the past year. Luncheon will be served at noon as in the past three years, according to J. J. Sechrist, secretary-treasurer of the four associations, who is in charge of the Salem office.

As of January 1, 1942, 563 Marion county farmers were using the credit facilities available through their local associations, with a total loan volume of \$2,191,250.00.

The annual meeting for the Dallas association will be held at Rickreall Monday at 1 p.m.

Hop Growers Meet Here On Tuesday

Shortage of labor and supplies and other problems vital to the hop industry as well as consideration of the program's progress will be discussed at a meeting of growers to be held at the Salem armory Tuesday at 1:30 p.m.

C. W. Paulus, managing agent of the hop control board, who returned Friday from California and will conduct a similar meeting at Yakima on Tuesday, announced the session.

The supplies came from Bingen, Maryhill and The Dalles areas with one local grower also offering a quantity.

Active demand was noted in

Spot Trading on Hop Mart Light, Half of '42 Crop Under Contract

Hop markets on the Pacific coast ranged from fully steady in California and Washington to slightly firmer in Oregon, according to the department of agriculture.

Trading in spot supplies was very limited reflecting the unusually small stocks of 1941 hops remaining in strictly growers hands. Some trade estimates place remaining supplies of 1941 hops still held by growers at only slightly more than 500 bales in the three west coast states.

Oregon hop markets were quiet in the spot trading due to lack of offerings from growers. Trade reports indicate that Oregon growers are holding probably not more than 250 bales of 1941 crop hops. These are reported to consist of small scattered lots with quality mostly medium.

In the absence of actual trading in spot hops, values were considered as nominally unchanged from last reported sales which were on the basis of 35 to 40 cents per pound according to quality, net growers.
