**Drop Slightly** 

Slow; Issues

Continued weakness of American Telephone, which added 31/4 points to its recent sharp decline and hit a new low since 1935, helped chill slight bullish inclinations in evidence at the start,

The Associated Press average of 60 stocks was off .3 of a point at 32, lowest level since April 27, 1933. Dealings were slow the greater part of the time but occasional pickups in activity put volume at 312,794 shares compared with 281,250 Monday.

### **Strawberry Pool Elects Officers** At Union Hill

UNION HILL-The annual meeting of the Union Hill strawberry pool was held at the grange hall to elect officers and decide on selling the pool.

Clifford Stuhr was named president; W. M. Tate, secretary and treasurer, and Lars Barney, director for three years. Other directors are Arthur Tasto and Frank

Mr. Rolland Jory, Salem, explained the price ceilings on fruit and vegetables by the government. It was decided not to try to sell the pool at this time as no ceiling has been placed on strawberries.

The Union Hill pool which is considered one of the best in the state has well over 200 acres.

### **Peppermint Crop** For 1942 to Be Larger Than 1941

A special early-season survey made by the US department of agriculture during the past 10 days indicates that the commercial acreage of peppermint and spearmint to be grown for oil in 1942 probably will be 21 percent larger than the acreage harvested in 1941 and the largest acreage since that of 1930. The present outlook is for a total of 46,090 acres for harvest for oil in 1942 compared with 38,040 acres harvested in 1942. In 1930, a total of 57,500 acres was harvested.

# By Quinn Hall Dairy Use of Preference **Ratings Cut**

Processors and producers of dairy products in the Pacific northwest desiring to take advantage of the high preference ratings for maintenance and repair materials, were warned by J. Fred Bergesch, Oregon priorities manager Tuesday, that they must use these materials before June 30, 1942.

An amendment issued by WPB Tuesday to preference order No. P-118 restricts the application of the high preference ratings to dairy processors to orders for use before that date.

The order makes available for the limited period an A-2 rating for emergency repair materials and an A-3 rating for normal repair, maintenance and operating materials for plants process or producing dairy products. These high ratings were granted to make certain that necessary machinery is kept in good running order to meet increasing demands for milk and other dairy products for the armed forces, the civilian population and the allied nations.
