### Added Mileage for Private Cars Refused by Board of Control

The state board of control Wednesday rejected a proposal that state employees using their private automobiles on state business have their mileage allowances increased.

State employees who now use their cars for state business are paid four cents a mile. Several state departments said they wanted this allowance increased to 5 cents. State Budget Director George Aiken suggested that the mileage allowance schedule be fixed at 5 cents a mile for the first 1000 miles and 4 cents a mile thereafter.

Aiken said a small increase was justified because the employees are wearing out their tires on state business. Members of the board said they favored a marked curtailment in the use of all automobiles used in state business, both private and state-owned.

Clifton Mudd, state property comptroller, was granted a leave of absence to enter the army, in which he has been commissioned a captain. The board said it doubted whether he would be replaced. Mudd has charge of all state-owned property.

The board approved small salary increases for a number of

### Where They Are - What They're Doing

Looking back 24 years, Wednesday, Robert B. Fallon, CQM, USN, in charge of the local navy recruiting station, reminisced to May 20, 1918, aboard the USS Raleigh under the command of Franklin D. Ridgley, assigned to the US South Atlantic patrol squadron under the command of Rear Admiral Caperton.

Rear Admiral Caperton gave orders for the Raleigh to proceed from the port of Bahia, Brazil, to the city of Dakar, West Singhaese, in West Africa. The object of their venture was to encounter two German U-boats which were raiding the Liberian coast. The Raleigh came in contact with the subs but due to rough seas and lack of coal after the long trip, only 17 shots were fired at long range and there was no definite indication whether they were sunk or not, although they were never reported in that vicinity again.

The USS Raleigh fired the first shot in the battle of Manila bay on May 1, 1898, when Admiral Dewey gave the word "You can fire when ready, Gridley."
