Free Ideals Said Needed Now, Later

Temporarily the methods of dictatorship must be adopted in the United States in order that Europe's dictators may be successfully combatted - yet even temporarily the ideal of individual freedom and of human rights need not be abandoned, E. B. MacNaughton, president of the First National Bank of Portland, told a Salem chamber of commerce luncheon audience on Mon-

Nor must those ideals plus a "benevolent intelligence" in gov-Thompson, 20, student, 1445 State ernment be lost after the war even though, in order to avoid chaos in business, employment packer. 935 Hood street, and La- and social organization, there may Ree Hyde, 24, salesgirl, 685 North be a further extension of federal control, the speaker declared.

> Avoidance of a post-war desible because at least 112 governmental and private agencies are now studying the problem, Mac-Naughton said. He pointed out that economic planning was no tury ago.

Buy a War Savings Stamp -Get a Scenic View Free!

THEY'RE HERE! Yes sir, the first of those 1942 Scenic Views have arrived and are bigger and more beautiful than ever. Sunday was the day we started giving out "Mount Rushmore - The Shrine of Democracy" to everyone who comes in and buys a War Savings Stamp. It's a really inspiring picture and the tribute that Rupert Hughes has written to go with it is something I won't forget very soon. And best of all, every Scenic View you collect will mean money for Uncle Sam and a grand investment for you. Come and get 'em!

What Every Woman — Should Know About Parking

These diagrams tell the story. First, drive up ahead of the space you're going to park in, even with-and close to-the car ahead

outside rear fender with the outside front

fender of the car in back of you. When

they're in line, cut front wheels to left.

Then turn your front wheels sharply to

the right, shift into reverse, and start back-

ing your car slowly into the space. Keep

an eye on traffic coming from behind!

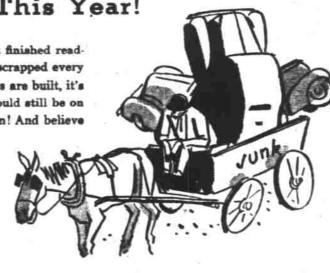

Now jockey yourself into parking position. Don't park too close to the curb, or grind your tires against curbstone. Most cities allow you six inches leeway.

Four Million Cars Will Go on

the Scrap Heap This Year!

THAT'S A GUESS, of course, but I just finished reading that an average of 4,114,970 cars are scrapped every year. And knowing how well modern cars are built, it's a good bet that a big chunk of those would still be on the road if they had the right lubrication! And believe me, nobody is better trained to give

your car the right lubrication than a Standard service man. Walk over to the grease rack some time, and let us show you the "extras" that come with every Standard lubrication job.

OUD DOG PERKIRUS SEE:

There may be fewer cars on the road today, but more of 'em are paid for, by jeepers! 99

How Often Does the Army Change Oil?

Do you know that the United States Army changes oil in cars and trucks either at 500 or 1,000 miles? That's a pretty good tip to us civilians. If you change your oil every thousand miles, and stick to RPM Motor Oil, you'll be giving your engine the finest protection it can get at any price.
