Cotton rayon fabric has been designated for the utility coat, the removable lining to be of a weight suitable to the region in which it is to be worn. A scalloped cape sets off this garment and affords additional protection across the shoulders.

Long sleeves and two patch pockets feature the modish official blouse of woven mercerized cotton for the uniforms. A detachable belt of the covert cloth will have a cloth-covered plastic buckle.

A slipper of moccasin type, done in capeskin, with a soft leather sole, will be included for comfortable wear in the barracks. The galosh is a two-snap model, with an eight-inch square top.

In addition to the basic uniform, the quartermaster corps has designed a double-breasted heavy coat; a utility coat with a removable woolen lining; a light weight raincoat with a hood; a shirtwaist with a convertible collar, and a necktie.
