Nursing Class Views Pictures

MONMOUTH—In connection with the home nursing classes sponsored here by the Red Cross, two lectures were given last week. Miss Mary McConnell, Corvallis, a registered nurse on the cantonment staff personnel, talked on communicable diseases Monday night. Thursday night, Dr. Herbert Notkin, cantonment doctor, talked on venereal diseases. His lecture was supplemented by slides presented by Mrs. George Moorehead of Salem.

Dr. Notkin discussed the several stages of venereal diseases, explaining symptoms and methods of treatment. Fully 90 per cent of syphilis is curable if treatment is begun immediately; and at least 85 per cent of babies born of infected mothers can be saved if the mother takes treatment promptly and continuously, he said.

The tremendous aid of sulfanilamide treatment for gonorrhea was explained, its prompt reaction if used at once, and the high percentage of cures which can be made in a brief time.

The home nursing classes here will be completed June 15. Both classes have been largely attended. Mrs. A. L. Cummins of Salem was the organizer. Mrs. Dell Tedrow of Elkins has been teaching a third class near Lewisville.

"The Shame of Japanese Treachery Must Be Wiped Out!" F. D. R.

JOIN THE U. S. ARMY AIR FORCES AND Pay Them Back In Person!

100,000 Men Aged 18 to 26 (Inclusive) Are Needed Now for Officers' Training!

Or—if you have been to college and have studied the right scientific subjects—you can try for a commission as a ground duty officer—in Armament, Communications, Engineering, Meteorology or Photography.

This past year about 80% of all Aviation Cadets won commissions—of which 67% are now flying officers. So your chances are excellent.

When you become a Second Lieutenant with the U. S. Army Air Forces, your pay ranges from \$183 to \$245 a month. Advancement should be rapid because of the tremendous expansion program of our air army.

And after this war is over and the curse of Hitlerism ended, experts predict that aviation will be the greatest of all growing industries. By training and experience, you will be in the forefront of those opportunities.

FLY WITH US—FIGHT WITH US

If you have thrilled to the mighty deeds of Army airmen, here is your chance to join them.

America's planes are rising fast—by the thundering thousands every month. That's why we want every qualified man to apply now for Officers' Training.

For further information . . . drop in any Army Recruiting and Induction Station for a friendly chat. If you would like to enlist now with one of the Aviation Cadet Examining Boards, arrangements can be made for you to take your mental and physical examinations the same day.

The sooner you apply, the sooner you will go on the list for immediate training. Join now. Fly with us—fight with us, 'til the last Axis plane is shot out of the sky!

NOTE: Those under 21 years of age will require parents' or guardian's consent. Birth certificates and three letters of recommendation will be required of all applicants.

THREE WAYS TO ENLIST

All Men of 18 to 26 Years (inclusive) who pass their Aviation Cadet examination and apply for immediate Air Cadet training.

1. may enlist as privates in the Army Air Forces (unassigned) and serve there until their turns come for Aviation Cadet training.
2. or they may enlist in the Air Corps Enlisted Reserve and wait until they are ordered to report for Aviation Cadet training.
3. In addition to the two ways outlined above College men and High School seniors (upon entering college) aged 18 to 26, inclusive, may enlist in the Air Corps Enlisted Reserve and continue their schooling, provided they maintain satisfactory scholastic standings.

Upon graduation or withdrawal from college, men will be assigned to active duty at a training center as facilities become available.

If the necessity of war demands, the deferred status in the Army Reserve may be terminated at any time by the Secretary of War.

The new Army Air Corps Enlisted Reserve Plan is part of the over-all Army Enlisted Reserve program.

This program provides opportunities for college men to enlist on a deferred basis and to continue their education. However, all students who enlist in the Army Air Corps Enlisted Reserve on a deferred basis to continue their education will be required during their second year to take a qualifying examination prescribed by the War Department to determine if their college work justifies further deferment.

In case of necessity, the Secretary of War shall determine when they may be called to active duty.

This plan has been approved in the belief that continuance of education will develop capacities for leadership. (Reserve enlistment will not affect regulations regarding established R.O.T.C. plans.)
