

Air Transport, Gold Bought

Late Bids Put Steady Note in Wavering Stock Market

NEW YORK, June 15 (AP)—Late bids for air transports steadied the stock market Monday after considerable early hesitancy.

The list shifted in irregular fractions at the start. Selective improvement cropped up in the wake of the flurry of aviation. Gold mine issues also were given a last-minute push. Closing advances of fractions to a point or more were well distributed, although many leaders were about even to a shade under water.

A little short covering and new buying in the tail end of the session was attributed partly to the belief drying up of offerings indicated the market might be ready to resume the rally interrupted by last week's profit taking decline. The war news provided nothing much in the way of bullish incentives.

Moderately revived demand for the aviation, mines and other peace-time favorites, brokers suggested, was based largely on what they referred to as the long-pull outlook rather than any idea the world conflict would come to a quick finish.

The Associated Press average of 60 stocks was up .1 of a point at 35.7. Transfers of 262,840 shares compared with 220,220 last Friday.

Produce Mart Prices

PORTLAND, June 15 (AP)—Strawberry sales ranged from a low of \$1.30 for 12s to a top of \$1.50 on the Farmers' Wholesale market Monday. Demand was brisk.

Raspberries, in small supply, sold for \$2 for 12s. Gooseberries went as high as 6 1/2 cents a pound. Fancy Bing cherries brought 15 cents pound.

Good lettuce was in demand with the price spread from \$1 to \$1.30 crate. Green beans sold to 15 cents pound. Asparagus was strong around \$2.85 to \$3 pyramid. Peas moved mostly around \$2.50 for 30s. Cauliflower is brought \$1.40 generally. Spinach was mostly \$1 orange box.

Green onions held 25 to 30 cents dozen bunches.

Many Sheep Unshorn

FOX VALLEY — Many sheep in this vicinity are unshorn as the result of unfavorable weather conditions. Linn Lambert sheared at the Allison farm Friday.

Early Gains Wiped Out, Grain Mart

CHICAGO, June 15 (AP)—Early gains of almost a cent a bushel in wheat prices, more than a cent in rye and better than 2 cents in soybeans were reduced or wiped out before the closing bell Monday.

Buying touched off at the opening gave the market its strong early advance but when this subsided prices reacted and in late dealings fell to fractional net losses in some cases. Hedging sales and profit taking accounted for most of the late pressure. Reports of wet weather delays to wheat harvest and of lend-lease purchase of 22,000 barrels of rye flour for Russia stimulated early buying.

Wheat closed unchanged to 1/4 lower compared with Saturday, July \$1.18 1/2, September \$1.21 1/4; corn unchanged to 1/4 higher, July 86-86 1/2, September 88 3/4-7/8. Kansas City reports told of a letup in harvesting operation in many sections of the southwest due to wet weather, with resumption of field work expected to be delayed. No new wheat has been received at that market as yet, with the movement already the latest in at least 10 years. Wichita reported arrival of five cars mostly grading tough and testing 14 to 14.5 per cent moisture.

Washington reports that government officials may offer special benefit payments to farmers who seed less than their allotment for the 1943 wheat harvest attracted attention. Under the law the allotment cannot be below 55,000 acres, same as this year, but because of the huge wheat surplus officials are expected to urge conversion of as much acreage as possible to other crops.

State Fair's Fate Will Be Decided Wednesday by Board

The state board of agriculture will hold its semi-annual meeting at the department of agriculture headquarters here all day Wednesday, Director J. D. Mickle said today.

Among matters to come before the board, and upon which a decision may be announced following the meeting, is whether or not a state fair will be held this year. The board's advice will be sought on feasibility of holding a streamlined exhibition, as well as other separate matters.

Members of the board are E. A. Geary, Klamath Falls, chairman; Fred Cockerell, Milwaukie; E. A. McCormick, Eugene; George Fullenwider, Carlton; A. F. Hayes, Brooks; Armand Perkins, Haines; and Rory Collins, Hood River.

Water Supply Is Plentiful

WASHINGTON, June 15 (AP)—Farmers in most areas of the far western states can look forward to abundant water supplies for irrigation this year, the department of agriculture said today.

The prediction was based on extensive snow surveys of the past spring. Measurements on main watersheds and snow courses indicated that the season's runoff would range from around normal to better, and that most reservoirs would be "well filled."

For Oregon as a whole the department said the snow water content on 89 per cent of all courses was greater than in 1941 and in most cases was greater than in 1940 and 1938.

"Deep soil moisture of crop land through the state was reported fully as good as last year and better than average—the best of a decade in some dry land farm areas," the report said.

"More water is stored in reservoirs than for several years. The large Owyhee, Vale and Klamath projects started the season with exceptionally favorable irrigation supplies, either in storage or prospect."

"Such also was the case on water shortage of greater or less extent, in most of the interior basin, and on Crooked river. Water shortage of greater or less extent were in prospect for lands served by the headwaters of the
