Warmerdam and Dodds Stars of AAU Trackfest; Hal Davis Cops 2 Events

By HAROLD CLASSEN

NEW YORK, June 20-(AP)—Cornelius Warmerdam, a cloud-bruising valuter from California, and Gil Dodds, a scripture-quoting miler from Boston, all but ran away with the national AAU senior track and field meet.

Warmerdam established one of the day's two records by hiking the pole vault bar to 15 feet, 2 1/2 inches, adding one and three-eighths inches to the mark he set in 1940. Dodds repeated his indoor triumph over Leslie MacMitchell, New York University graduate, in the 1500 meters, or metric mile.

The other record was set by Francis Best of the New York AC, who hurled the 56-pound weight 39 feet, 3 3/4 inches, to wipe out the 38 foot, 9 3/4 inch mark Pat McDonald of the same club set back in 1911.

Warmerdam had no difficulty at all in clearing the record height but when he plastered on another seven inches he failed to make it in the three allowed tries.

He jerked virtually all the 12,000 spectators out of their seats on the third and last attempt at 15 feet, 9 inches, by skimming over the stick but brushing it off with his elbow on the way down.

The gate receipts plus the revenue from a 150-page program will mean a contribution of more than \$75,000 to the army emergency relief.

Dodds was kept from the lead in the start of the metric mile by Frank Dixon, New York school boy, but the Boston theologian was out in front with a little less than two laps to go. At that point MacMitchell started his drive from far back while Leroy F. Weed of Southern California was furnishing the opposition for Dodds.

The winner, who had charged a race of a .59 quarter and a 3:02 half mile, reached those figures exactly as he gambled to the tape in 3:50.2. Weed wound up second by five yards and MacMitchell's final kick brought him third by a similar margin.

Those performances obscured such efforts as Harold Davis' twin victories in the sprints; Billy Brown's two titles in the broad jump and in the hop, step and jump; and Greg Rice's expected triumph in the 5000 meter run.

Davis, the University of California dashman running for the San Francisco Olympic club, captured the 100 meters in :10.5 and the 200 in :20.9. It was the third straight triumph for the California comet in the longer event.

Brown, formerly of Louisiana State university but now at the Norfolk, Va., naval training station, did 24 feet 3 3/4 inches in the broad jump and 48 feet 11 1/2 inches in the triple leap. It was the third straight year that Brown has chucked up a double.

Rice plodded to a lonesome triumph in the 5000, breaking the tape approximately 200 yards in advance of Part Cazares, San Francisco Olympic club, his fifth consecutive verdict at the distance.

Al Blazio, who competed as a member of the New York AC, retained his shot put title although he pushed the ball but 53 feet 8 3/4 inches. It was his third consecutive triumph.

Ray and Coleman Crowned State Trapshoot Champs at Eugene

EUGENE, June 20-(AP)—Two state trapshooting champions were crowned here Saturday as Cal. M. Ray of Coquille won the doubles and Dick Coleman of Oregon City the junior titles. More than 200 gunners from California, Utah, Montana, Washington and Oregon were primed Saturday night for the finale Sunday when the state singles, handicap and ladies' singles will be decided.

Ray Glass of Eugene and Bobby Ray of Coquille took the initial lead in the singles with 99's in the first 100 targets. They were tied by three out-of-state scatter gunners who were not eligible for the state title, namely, Stanley Brock of Seattle, Oliver Lane of Yreka, Calif., and C. F. Vining of Sacramento.

Shirley Nusom of Quincy took a commanding lead for the ladies' title with a 97, far ahead of the field.

Ray, in dethroning Frank Troch of Portland for the doubles title, cracked 115 out of 120, with Troch bagging 113. Coleman, 15-year-old Oregon City high sophomore, scored 91 in spread-eagling the field. He recently won the ATA title in Portland with 97 score.

M. G. Henkel of Portland won the preliminary handicap Saturday with a 95, one more than J. G. Gearin of Portland and Al Nirschl of Pendleton.

In elections held Friday night, Marshall Cornett of Klamath Falls was elected president of

Henson Gone, So WI Bat Bee Cools Considerably

(The below averages, compiled by Howe News Bureau of Chicago, include games of Monday, June 15.)

When Charlie Henson pulled out of the Western International league there was a wholesale dropping off in hitting, which resulted in a grand total of only five regulars batting over .300 or better. The real leader last week was Elmer Mallory of Vancouver, with a mark of .314 in 50 games.

Surprise of the statistics is Alf Calteaux' leadership in the runs batted in column. The Salem second baseman has driven in 30 with his .288 average, one more than Abbott.

Don Osborn hung up another win last week, (not counting that 1-0 game against Salem), and his record now reads 9 wins and 1 loss.

Mallory is also leading base swapper with a total of 23, six ahead of Buccola and eight in front of Salem's Bill Johnson.

Russell Bros. Circus Coming For Salem Performance July 2

Good news in a troubled world! The circus is coming to town!

Ideal relief from the tensions of wartime is promised by Russell Bros.' great 3-ring circus, coming to the Leslie junior high school grounds in Salem Thursday, June 2.

Russell Bros., one of the three largest circuses now touring America, has long been a prime favorite in the east and middle west and this season is extending its popularity to the western states, after passing the winter at the old Selig zoo in Los Angeles.

Advance agents emphasize that it is not to be confused with carnivals that use the word "circus" in their advertising. It is, rather, a high-class three-ring circus in all that the term implies, replete with menagerie, performing elephants, magnificent horses and many other trained animal features, together with all manner of acrobats, aerial gymnasts, tumblers, jugglers, equilibrists and clowns—all presented with the traditional atmosphere of the "big top."

Headlining features include Jorgen M. Christiansen and his famous South American Criollo horses, Winston's Equestrian se lions, the seven skyrocketing Escalantes, sensational DeWayne's four Acevedos, Bell-Thayer troupe, Grace Orton trio, Clarkonians, aerial Alexandros, and many others. The program opens with a grand patriotic spectacle, "United for Victory."

Doors to the menagerie and big show open at 7 and 7 p.m., and performances start at 2 and 8.

New Signs Excluding Enemy Aliens Explained by Army

FORT LEWIS, Wash., June 20—With boundaries of important military districts in Oregon and Washington now designated by conspicuous signs, army authorities Saturday issued an explanation of what the signs mean and to whom they apply.

In cooperation with the army, Oregon and Washington highway departments and the United States forest service furnished crews for posting some 2000 signs which will warn enemy aliens that certain areas are either prohibited or restricted territory.

The signs are marked either "Military Area No. 1, Zone A, Prohibited" or "Military Area No. 1, Zone B, Restricted," depending upon where they are posted.

Roughly speaking, Military Area No. 1 is the western half of Oregon and Washington, the remaining sections of the two states comprising part of Military Area No. 2. All that portion of Oregon and Washington lying generally west of highway 99 is termed zone A and given the numerical designation A-1 to differentiate it from other zone A areas elsewhere. Zone B is the remainder of Military Area No. 1 between highway 99 and the western edge of Military Area No. 2.

In addition, however, there are additional zone A areas lying outside zone A-1, either in Military Area No. 1 or in other military areas, covering such vital districts as air fields, power plants, radio towers and bridges. These other zone A areas are numbered from zone A-2 to A-1033.

All zone A areas are designated as prohibited areas and are marked accordingly with signs bearing the word "Prohibited." Zone B is a restricted region and its eastern boundary, which is also the
