

Coddling Moth Spray Needed

Eggs Due to Hatch on June 27, Reider Calculates

Apple and pear growers in the Willamette valley should apply a spray now for the control of coddling moth, announces Robert E. Reider, acting county agent.

The recommended spray is powdered lead arsenate used at the rate of three pounds to 100 gallons of water.

Calcium arsenate, used at the rate of three pounds powdered calcium arsenate to 100 gallons of water, has been used successfully in the Willamette valley for coddling moth control.

Thoroughness of application, the county agent states, is essential in coddling moth control. The foliage as well as the entire surface of every apple and pear should be thoroughly covered with the spray solution if worm injury is to be prevented.

Ladino Clover Is Getting Dry

Pastures Need Moisture Despite Rains, Says County Agent

Most ladino clover pastures are now in need of irrigation regardless of the rain during the past few weeks, according to W. G. Nibler, assistant county agent.

A ladino clover pasture growing at the rate it does this time of year will use about two inches of water per week, says Nibler. Although the rains have seemed very wet, actually they have amounted to less than one half inch per week and all this time our pastures have been getting drier.

Where grass has been crowding the ladino, in the pastures, clipping followed by a good irrigation, will aid greatly in stimulating the clover.

Yakima Cherries Being Received

The Willamette Valley Cherry Growers association reported Monday that cherries were being received at their plant from The Dalles and Yakima, Wash. No local cherries were expected before July 1.

Association officials said sugar and cans would play an important part in the size of the 1942 pack.

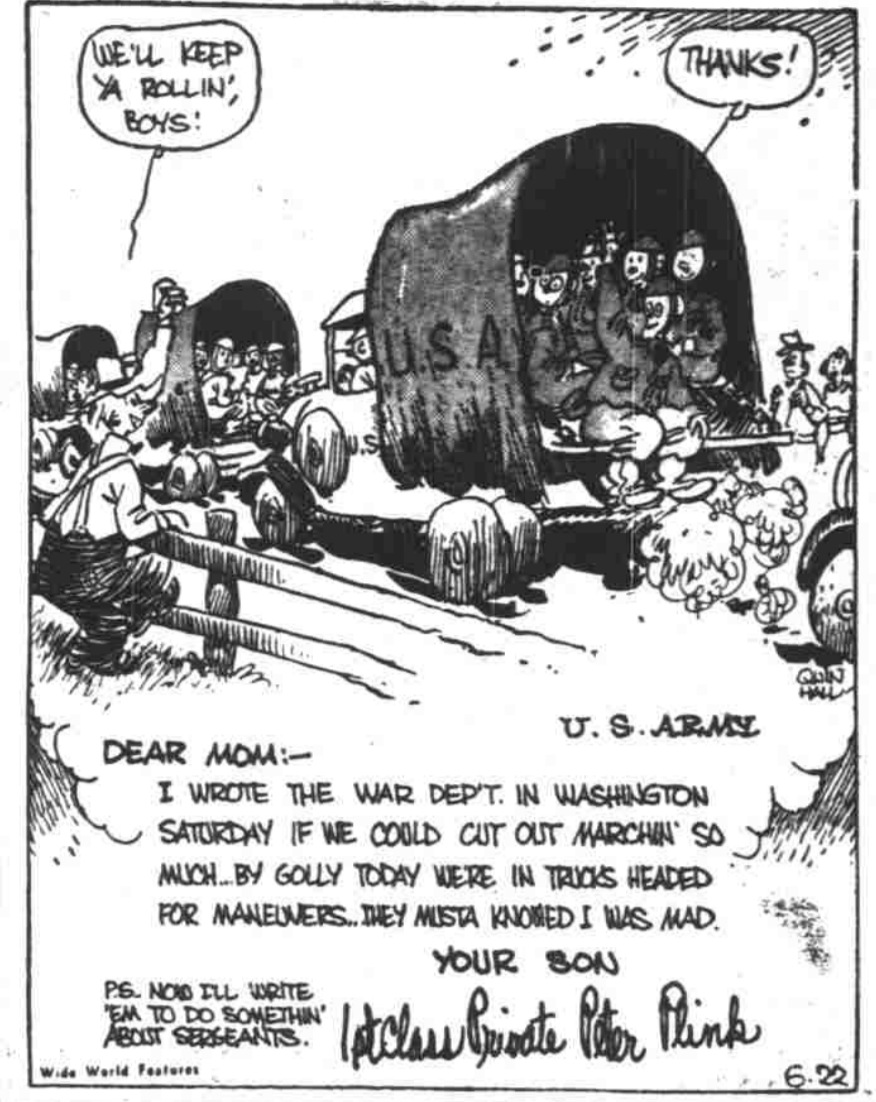

Turner Masonic Lodge Adjourns

TURNER — Pearl Masonic lodge has held its last meeting for the summer months and will re-convene in September. Representatives at the grand lodge in Portland include Herman Peetz, Robert Mountain and Arthur Edwards.

Wheat Slips, Recovers

Over Cent a Bushel Drop Virtually Wiped Out

CHICAGO, June 22 (AP)—After tumbling more than a cent a bushel early in the session, wheat prices rallied slowly Monday to recover virtually all the loss before the close.

The early break was blamed largely on war news which inspired accumulation of selling orders over the weekend. However, these orders were small and as soon as they were exhausted the market began its rally.

Buying of professional dealers covering previous short sales and mills, possibly associated with limited flour sales to the government, helped to rally wheat.

The close was 1/4 cent lower than Saturday, July \$1.18 3/4, September \$1.21 3/4. Other grains largely followed the trend of wheat, corn finishing unchanged to a up, July 86 1/2, September 89 1/4, oats unchanged; rye 1/4-1/2 higher.

New wheat was offered to Chicago dealers and purchase of 2000 bushels was reported on a to-arrive basis. Bids were made at 1 1/2 cents a bushel under July

Forty Acre Pea Crop Is Being Harvested

PLEASANTDALE — McFarlane brothers are harvesting 40 acres of peas for the Ray-Maling company. With the continued wet weather the cutting has been tedious, they report.

Stocks Suffer Bad Tumble

War News Depressed Prices as Much As 3 Points

NEW YORK, June 22 (AP)—Depressed mainly by the war news, the stock market Monday suffered one of its worst tumbles in the past several months although selling pressure was notable by its absence.

Prices slipped at the start as sentiment apparently was chilled by the collapse of Tobruk, the critical position of the Russians at Sevastopol and a slight darkening of the picture in the Pacific.

Steels, motors, mail orders, farm implements and aircraft led the retreat for declines of fractions to 3 points. Extreme setbacks were reduced in many

Stocks and Bonds

The Associated Press average of 60 stocks was off .5 of a point at 35.1. The composite was down about a full point from the June top. Transfers totalled 313,000 shares compared with 287,510 last Friday.
