### Museum for DAR Now Planned

Chemeketa Chapter of Daughters of the American Revolution, came one step nearer to acquiring a long coveted museum and chapter house yesterday, when it was announced that Burt Brown Barker has presented the organization with the historical old "Parsonage" at 1325 Ferry street.

The house, built in 1841-42, was originally the Indian manual training school, but upon failure of that institution, housed teachers who came around The Horn to join the Willamette faculty. Later it was incorporated into the university, and still later housed many famous Methodist ministers and became a meeting place for those of importance in the church. Hence the name "Parsonage."

The property on which the house now stands is owned by Roy Lockenour, and the DAR has agreed to move the building by August 15. Dr. Barker started a fund for its removal, by donating \$500. The DAR will immediately institute a campaign to raise enough money to purchase a piece of property and remove the house.
