# **Leading Stocks** Go Downward

#### **Profit Takers Cash** In on Last Week; Worse News

NEW YORK, July 13-(A)-Leading stocks edged downward in Monday's market without being subjected to any real selling pres-

Recent buyers with sizable profits on last week's sharp rally, second best for the year to date, included to cash at least part of them in the wake of more discouraging Russian war news. The slightly better outlook in Egypt failed to provide much stimulation. In addition, the latest house ways and means committee tax proposals were viewed as bearish for corporations.

The Associated Press average of 60 stocks was off .2 of a point at 37. Transfers of 278,840 shares compared with 435,415 in the precering full session.

The business pattern gave nothing much in the way of market sustenance. Steel stocks virtually ignored an estimated increase in this week's mill operations of 1.4 points at 99.1 per cent of capacity. The scrap situation, while holding well for the moment, was expected to prove a detriment to steelmakers in coming months.

Among share losers were US Steel, Bethlehem, General Motors, American Telephone, Santa Fe, Great Northern, Standard Oil (N J), Sears Roebuck, United Aircraft, Sperry, Anaconda, Cerro de Pasco, Westinghouse, Consolidated Edison, Johns Manville and US Gypsum.

Chrysler ended up a shade, along with Goodrich, Boeing, Deere, Philip Morris, Du Pont, Dow Chemical and International

Wheat sagged early on hedge selling, losing about 1/2 cent, and then rallied as shorts covered when no pronounced weakness was uncovered on the decline.
