## News Fails to Shake Stocks

Gains, Losses Mixed As Market Stays On Narrow Path

NEW YORK, Aug. 12 .- (AP)-Reverses to the Russian armies in the Caucasus failed to shake the stock market out of a narrow path Wednesday.

Final prices were mixed, though there was a faltering attempt at improvement late in the day which minimized some losses or changed them into gains.

Chrysler, which got its first chance to react to the announcement of lower earnings and a dividend cut made late Tuesday changed hands in big blocks at more than 2 points loss at the opening. It quieted to close off 1% points at 60.

These contributed to the rise in the day's total sales to 283,058 shares. Though small, this was above Tuesday's figure of 258,610 shares. The Associated Press average of 60 stocks was .1 of a point down at 36.3.

Rails and utilities were a bit active in the corporate bond market, some with small advances. US governments were about

steady. Gainers among big board stocks included Bethlehem Steel, Woolworth, International Harvester, Douglas, Standard Oil (NJ), Proctor & Gamble, Westinghouse and c Eastman.

Lower at the final bell, thought some were resistant at times, were Anaconda, Santa Fe, American Telephone, Pennsylvania, American Can, American Airlines, Johns Manville, Du Pont and Paramorest. US Steel and General Motors were among a large contingent unchanged.

## **Final Date Set** On Insurance

Marion county farmers who insure their wheat crops through 1945 under the new three-year federal crop insurance contract will have until August 18, 1943, to pay the first installment on the premium, W. M. Tate, chairman of the county AAA committee, announced yesterday.

The premium installment can be paid anytime before that date wheat or cash equivalent, or can be deducted from the grower's wheat loan, AAA conservation payment or any indemnity payment received under his crop insurance policy, the chairman explained. This payment plan-the commodity notewas introduced last year and proved popular with county growers, as it gives the insured grower an opportunity to pay his premium at the lowest market price quoted during the year.

The deferred premium payment plan, three-year contract provision, uniform premium rates and a reduced premium plan are all new features that have been combined to make all-risk crop insurance more attractive to county wheat growers, the chairman be-

Thirty county producers have already insured their crops for 1943, 1944 and 1945 by signing the new three-year contracts, W. M. Tate reported. Many of those signing contracts are taking out insurance for the first time, he said. With dollar wheat assured by the loan program, more growers are deciding that they cannot afford to run the risk of crop failure the chairman believes.

## Fruit, Vegetable **Shipments From** State Decrease

Oregon fields and orchards produced 19,593 carloads of fruits and vegetables for shipment out of the state in the year ended June 30, the state agricultural department reported Wednesday. The shipments for the year

dropped 4682 carloads below the 1940-41 shipments inspected and certified by the federal-state shipping inspection service.

Approximately 75 per cent of the drop, 3443 carloads, is accounted for in the Klamath basin potato inspection deal, Potato shipments from the Redmond area were only 10 carloads under the previous year. Onions, walnuts and filberts all showed gains.

### Record Books Out

C. S. McElhinny, Salem representative for the Oregon Mutual Life Insurance company, announces that the company's agents are distributing to farmers a new type farm record book which simplifies the keeping of records necessary for filing income tax re-

BOSTON, Aug. 12 —(AP)—USDA)
The demand for domestic wools was
slow in the Boston wool market today.
Some sales of fine staple wools were
made at \$1.18, clean basis. Offers of

50 cents, grease basis, were received for bright graded three-eighths wools, but little was available at this price.

Sales of scoured pulled wools, type B, were made at \$1.07.
