Aircrafts Take Lead In Advance; New **Highs Plentiful**

NEW YORK, Aug. 14-(AP)-The stock market picture brightened Friday along with the news of the battle of the Solomons and the outlook for a senate tax bill more in line with corporate needs.

Aircrafts came to life after a hesitant opening and, in fast dealings for a while, leading steels, air transports, rails, oils, liquors, amusements and specialties pushed up fractions to two points. New highs for the year or longer were plentiful.

There was a letdown in activity as the session progressed and gains were reduced or cancelled in many cases at the close.

The Associated Press average of 60 stocks emerged with a net advance of .2 of a point at 36.6. Transfers of 379,580 shares compared with 317, .140 the day before and were the largest since July 22.

Stocks in the new high class included Warner Bros., the liveliest performer of the day, up 1/8 at 61/8; Ohio Oil, Twentieth Century Fox, US Rubber preferred, Hiram Walker, United Merchants & Manufacturers, United Air Lines and American Sumatra To-

Others in front were Douglas Aircraft, United Aircraft, Sperry, General Motors, Chrysler, Union Pacific, Santa Fe, Amerada, American Telephone, Union Carbide, J. C. Penney and Eastern

Wool in Boston

BOSTON, Aug. 14—(AP)—(USDA)
The Boston wool market continued
quiet today. There was a demand for
choice fine staple wools at ceiling choice fine staple wools at ceiling prices. The government released all stocks of mohair for civilian use. Sales ed at \$1.07. Interest in low quarter blood wools resulted in a few small sales at around 90 cents, clean basis

Most Grains Show Gains

CHICAGO, Aug. 14-(AP)-Prices of most grain futures pointed upward Friday, wheat gaining almost a cent a bushel, but corn sagged about a cent, December and May delivery contracts reaching new seasonal lows.

Weakness of corn was blamed on good weather, diminished fattening of beef cattle, substantial purchases of grain to come here from country points and government offerings of feed wheat about on a par with prices at which it will support corn during the coming season.

Wheat, on the other hand, responded to modest mill buying, a letup in marketings at many terminals and reports from the spring belt of delayed harvest and fear of possible damage because of unfavorable weather in some localities.

Wheat closed %-% higher than Thursday, September \$1.181/4-1/4. December \$1.21-\$1.20%.

Of Brown Rot

Peach growers who have prospects of a crop of peaches, now rapidly reaching maturity should be on the alert for the spread of brown rot disease which is very prevalent this year, warns Robert E. Rieder, county agricultural ag-

"It looks like peaches will be worth protecting with sprays or dusts this year in spite of the reported light crops in a great GI many orchards," Rieder said.

The sulphur dust applied at the rate of about 1/2 pound per tree will be very effective in checking brown rot disease on the ripening fruit. It should be remembered, however, that a super-fine dust-ing sulphur should be used, one which will pass a 325 mesh screen is advisable. Some growers prefer to spray and satisfactory control No can be secured by the use of a wettable sulphur spray applied at the rate of about six pounds to 100 gallons of water. -

Growers are finding it profitable to dust or spray as often as 10-day intervals between now POULTRY and harvest time and while sul-Colored news White Leghorn frys White Leghorn hens I Marion Creamery's Buying Prices. phur is not very effective as a killing material for the 12-spotted cucumber beetle which is (Subject to change causing considerable damage to Burrier AT ripening fruit, it does however tend to check the beetle attacks on the fruit.

Market Meat Early, Advice

While current meat shortages reported from some parts of the Plan for Linn Fair country have not occurred to any important extent in Oregon, the present situation holds an element of warning to livestock producers, tion at the fall fair, Albany, Augpoints out R. G. Johnson, head of ust 27-28. the department of animal husbandry at Oregon State college.

In Oregon, as well as elsewhere in the country, farmers are raising the largest number of meat animals on record, with marketings normally scheduled to reach an all-time high late this fall and in early winter. Current shortages in some parts of the country are caused by an unusually large export and domestic demand for meat supplies plus some local dislocations caused by price control. Because of the current demand and favorable prices Oregon cat-

demen could well afford to move

some stock such as fat cows to

market in greater volume than

usual this summer and early fall so as to avoid a possible congestion in slaughtering and shipping facilities later on, says Johnson. The same holds true for hog raisers who may have hogs on hand now that could be hurried along to good size and finish by heavy feeding. Present price ratios are such that heavy feeding of a well balanced ration is justified and will return good profits, Johnson believes.

Thus, rapid forcing of Oregon

VAY! HEADIN' HOME!

meat animals to good size and

finish will help consumers and producers alike by relieving

shortages and avoiding later con-
