

Defense Clubs Get New Tires

Silverton Men Pledge 100 per Cent Use of Joint Vehicles

SILVERTON—Application for tire recapping from Silverton employees in defense work such as the Portland shipyards, are being received with attached recommendations from the plants. The applicants promise to use their vehicles 100 per cent in defense and the riders are notified they will be unable to obtain tire certificates for their own cars so long as the arrangement lasts. This also means that the same riders must ride continuously in this car "if shift hours, residence, place of employment" remain the same.

Mrs. Fay Bragg has been appointed chairman of the transportation of books and magazines to the soldiers from civilian defense headquarters. She will make arrangements to get these to their destination.

The drivers corps, headed by Mrs. F. J. Roubal, delivered dimout regulations, effective August 20, to various business houses about town who may be effected by those regulations. Mrs. Roubal and her group of drivers have completed their map reading courses under the direction of E. K. Burton. Those who have not already done so, are now studying first aid under Dr. A. L. V. Smith.

That first aid is useful was demonstrated recently when Mrs. Ross Winslow was able to administer first aid in an accident case at the wrecking of the old flour mill. Mrs. Winslow made the victim comfortable until medical assistance arrived. Mrs. Winslow is clerk of the local rationing board with headquarters at the old mill office.

Dr. A. L. V. Smith has accepted the chairmanship of the salvage committee replacing Mrs. Zanta Hutton. Mrs. Hutton asked to be released from the chairmanship because of press of other duties, but she will continue to serve on the committee under Dr. Smith, who has been a member of the committee. The collection drive will continue as before.

Defense Costs Are Reported

Silverton Funds Given Over Eight Months Period Total \$214.63

SILVERTON—During the first eight months of civilian defense at Silverton the cost has been \$214.63. Largest item of this was the \$147.16 needed to fit up the first aid station equipment under the direction of Dr. P. A. Loar, defense medical chairman for the Silverton district.

Dr. Loar reports that other items are needed to bring the Silverton emergency first aid station up to par. The school board is donating the use of two rooms at the Washington Irving building for this purpose with the understanding that the board may call for the two rooms any time they are needed for school purpose.

Next largest item is the \$61.97 paid out for the maintenance and building of the observation posts.

The American Legion post raised \$147.50 of the funds collected. The Lions club donated \$137.40, which includes \$25 from the sale of junk and \$112.40 from the carnival the club sponsored.

The remaining amount included donations from private individuals, according to C. H. Dickerson, defense finance chairman. Mr. Dickerson and his committee composed of R. G. Allen and Mrs. E. L. Starr, handle all defense finances, including both collections and disbursements.

HILLS BROS COFFEE

is now vacuum-packed in glass jars

Same Blend! Same Aroma!
Same Flavor! Same Strength!
And still vacuum-packed to keep the coffee FRESH!

Now that metal is no longer available for coffee cans, we are vacuum-packing Hills Bros. Coffee in glass jars. As rapidly as remaining stocks of cans are packed and sold, you will be seeing Hills Bros. Coffee in its new dress . . . in one- and two-pound glass jars . . . at your grocery store.

This change from cans to glass jars does not mean a change in the fine quality of Hills Bros. Coffee. No indeed! There has been no change in the quality of our blend. Our exclusive process . . . "Controlled Roasting" . . . insures the same matchless, uniform goodness in every pound. Our registered trademarks . . . the familiar "Arab" and "Red Can Brand" . . . appear on these glass jars as our guarantee that they contain the same high-grade coffee as has always been vacuum-packed in cans under the label, Hills Bros. "Red Can Brand" Coffee.

"Now that's what I call good coffee!"

Surpluses of Fresh Foods should not be wasted

Here's how you can "put up" your fruits and vegetables in Hills Bros. Coffee jars. Save each empty jar with its cover. Then ask your grocer for the new No. 63 Thrif-T-Lids—a one-piece sealing lid which gives airtight protection for all methods of canning. 10c for a packet of 12. Simple directions with each packet. If your grocer does not have Thrif-T-Lids, send 10c (coin, please—no stamps) for each packet of 12 that you desire, to Hills Bros. Coffee, Inc., 2 Harrison Street, San Francisco. The lids will be mailed postage prepaid.
