

PBY In War Paint Patrols Alaska

Shown in war paint for the first time, this PBY navy patrol bomber stationed at an Alaskan base wings its way over a range of mountains on the lookout for invading Japs in the Alaska and Aleutian islands area. (Associated Press Telemat).

Nelson Avers WPB Running Things Okeh

WASHINGTON, Aug. 20.—(AP)—War Production Chief Donald M. Nelson, obviously fighting mad and ready for a showdown on his administration of the war program, asserted Wednesday that "from now on any one who crosses my path is going to have his head taken off."

Asked if he planned to "get tough" in licking materials shortages and in refuting charges of some critics that WPB had mismanaged the war program, Nelson told the Associated Press: "I'm going to get tough enough to get this job done, and the job will be done, you can be sure of that. There'll be no more alibis. I'm sick of them."

Nelson, ordinarily calm and even-tempered, smashed a fist into his hand to make the point. Swiftly attacking one internal problem—the "leak" of confidential WPB reports—Nelson gave immediate effect to his warning that heads would fall by dismissing a \$5600 WPB employe.

"He's fired," Nelson said flatly. Stephen E. Fitzgerald, head of WPB's information division, identified the dismissed man as Frederick I. Libbey, an engineering consultant. Libbey, the spokesman said, discussed contents of a confidential report with a newspaper reporter.

The report, which Libbey was drafting, covered operations of the WPB iron and steel branch, and the newspaper story said it accused the branch of operational waste and inefficiency.

Nelson was newly returned to his desk after a week-long rest and physical check up in the Adirondacks—a week which was marked in Washington by steadily mounting criticism of his regime as production czar, forecasts of widespread plant shutdowns and hints that the armed services were ready to act as receivers to a bankrupted civilian management of the war.

Family Will Move To Home in Keizer

UNIONVALE—Mr. and Mrs. Harry Kleinschmidt, who recently sold their farm, have rented a house in the Keizer district and are preparing to move at once. The new owners, Mr. and Mrs. Edwin Rutchman and family of Monmouth, whose home was in the Adair cantonment area, are in a hurry to get possession.

Rev. Gerald Jaffe, local pastor, is at the parsonage this week and is doing interior finishing at the remodeling of the building. He attended camp meetings at Jennings Lodge and will attend the United Brethren conference soon.

Nazi Firm Moves

BERN, Switzerland, Aug. 20.—(AP)—The Neue Zuercher Zeitung said in a Stockholm dispatch Wednesday that the I. G. Farben industry, Germany's great chemical concern, was transferring part of its production to Norway.

Royal Daughter Dies

LONDON, Thursday, Aug. 20.—(AP)—Princess Tshai, 22, the younger daughter of Emperor Haile Selassie of Ethiopia, died Monday at Lekempti, Ethiopia, it was announced here Wednesday. The princess had married Col. Abily Abbabs four months ago.

OPA Says No Action Ready, Lack of Milk

THE DALLES, Aug. 20.—(AP)—The Oregon office of price administration has joined with the milk control board in telling producers and distributors that nothing immediate can be done to help relieve the milk shortage.

After a meeting here, the OPA issued the following statement: "It is reported to the Oregon state OPA office in Portland that a milk shortage threatens in several sections of the state and that this condition is being blamed on the ceiling prices established by the OPA for fluid milk. The complaint is that ceiling prices are not high enough to permit dairymen to compete for labor with the war industries, that they are losing their employees to the war industries and therefore must reduce or sell their herds."

"It is also reported that the dairymen are being advised to ask the OPA for an increase in ceiling prices."

"But the problem complained of is not essentially a price problem. It is rather a problem of labor scarcity and hence cannot fairly be referred to the OPA. In other words, the problem is not one which can be solved by a price increase, at least not without seriously curtailing consumption of milk. A shortage of consumption because of too high prices would be as serious to the public and to the dairymen as would a shortage of production."

Mt. Angel Normal School Schedules Fall Opening

MT. ANGEL—"The demand for nurses and the shortage of teachers should bring young women to the realization that they will be serving their country in a vital way by returning to school this fall to prepare for these and other professions," Margaret Frank, 1941-42 student body president of Mt. Angel normal and college, believes.

Legionnaires Have Picnic

SILVERTON—The American Legion post and auxiliary met Monday for the annual picnic at the city park, a basket supper preceding the brief business session. The affair was in honor of the sons and juniors.

Mrs. Zanta Hutton, president, was in charge of the unit group and announced that the installation of officers would be an event of September 8, with Mrs. Mem Pierce, Salem, president of district No. 2, as official installing guest and Mt. Angel as the installing team. Installation is joint with the post and will be in the fireplace rooms in the basement of the armory.

Mrs. J. R. Black reported for the juniors that a total of 306 books and magazines have been sent by them to Camp Adair. A letter of thanks from Camp Adair was read, saying that these were the first to be received there.

Mrs. Clifton Dickerson was presented with a gift in appreciation of her work for the auxiliary and with the junior girls during the year. Josephine Lake won the dark horse gift, which netted the sum of \$2.25 for the juniors.

Mt. Angel Normal and college offers both the three-year normal curriculum and a four-year liberal arts course. Business administration, secretarial training, and pre-nursing courses may be completed in two years.

Registration dates for both normal and college students are September 20 and 21.

Students in the normal school have the advantage of teaching experience in a large nine-room city school, the three-room training school on the campus, a model rural schoolroom organized for a specified period, and an educational clinic. Active participation in inter-mural athletics, dramatics, and journalism is open to all students. The school paper, The Abiqua, is one of the few Oregon school papers holding all American rating from the Associated Collegiate Press.

Man Cook Splits Wood, Also Thumb

UNION HILL—Richard Krenz met with a bad accident while splitting wood for the cook stove at the Mill City forestry camp Tuesday. The axe glanced, cutting a long gash on his thumb and back toward his wrist. He was treated by a Stayton physician, five stitches were required to close the wound. Young Krenz is cook for the forestry crew at the camp.

Beans for Lunches Canned, Mt. Angel

MT. ANGEL—Three sacks of green beans were canned for the school children's hot lunches by Miss Theresa Dehler, principal of the school, Mrs. Alois Keber, Miss Elizabeth Keber, Miss Dorothy Keber and Mrs. John Diehl.

The women worked all day and until late at night Tuesday at the school kitchen and again on Thursday. The beans were procured from the Woodburn cannery by Father Hildebrand.

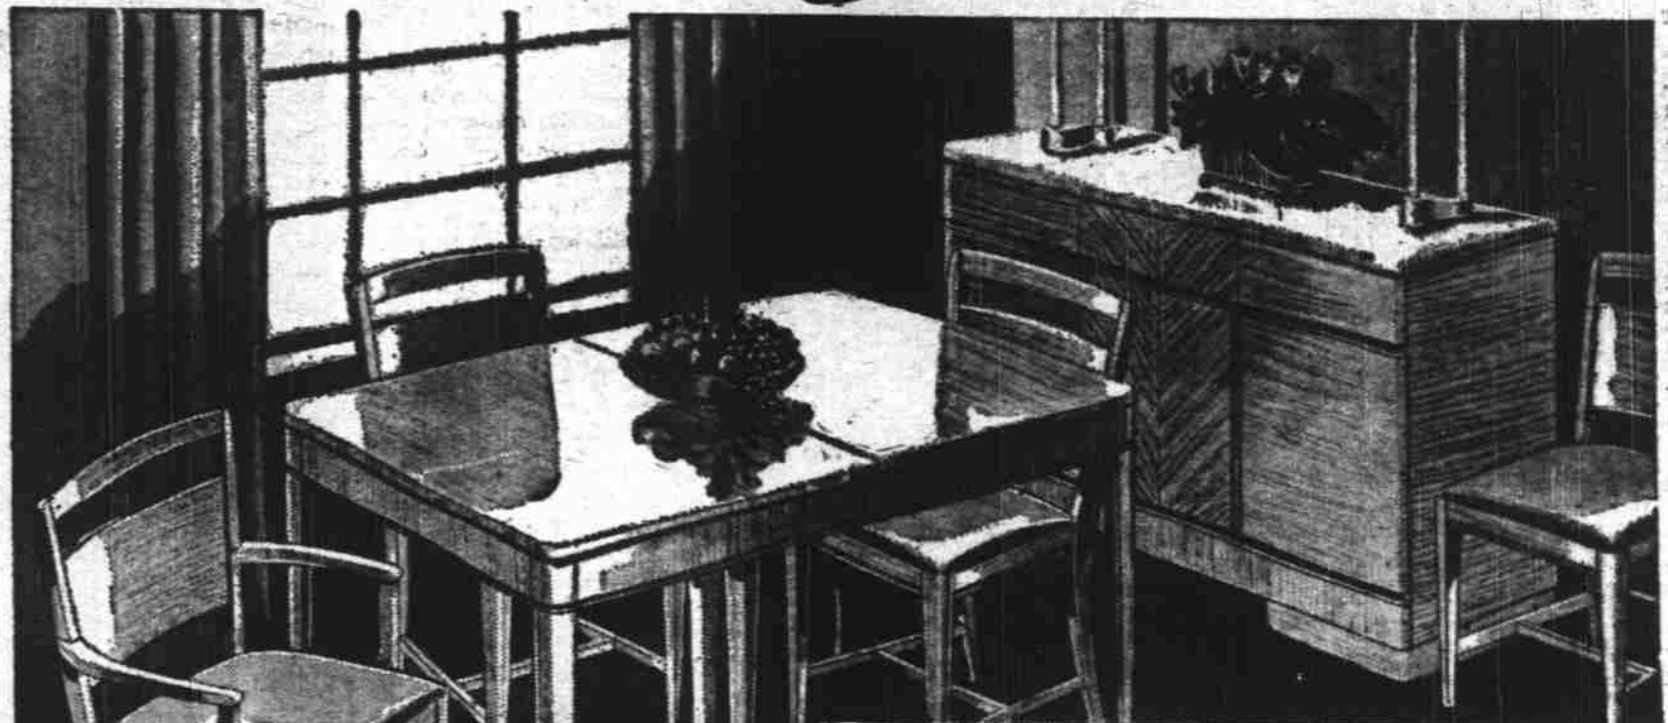

Sixteen Sections To Be Logged off

HAZEL GREEN—The Murphy Lumber company of Portland is building roads in preparation for a big job in this section. The job includes the logging of 16 sections. This reaches beyond the top of the Cascades range.

The hemlock will be used by the paper mills and to make "hog feed" a sawdust for fuel, the better logs to the Portland yards.
