35-Mile Limit Signs Readied For Highways

Installation of approximately 200 highway signs, calling motorists' attention to the new speed limitation of 35 miles an hour, will get under way within the next week or 10 days, R. H. Baldock, state highway engineer, reported here Tuesday. Baldock said the signs are now being manufactured in the state highway shops. Installation of the signs was authorized by the state highway commission at a recent meeting in Portland. The proclamation reducing the speed restriction to 35 miles an hour was issued by Gov. Charles A. Sprague. A previous proclamation fixed the maximum speed at 40 miles an hour. Officials said the state law, fixing the speed limitation at 35 miles an hour, probably would be amended by the 1943 legislature. The 35 mile speed limitation is now nation wide. Its purpose is to conserve rubber and other essential war materials.

Wood Dealers Prepare for Ceiling Sales

Fifteen Salem wood dealers cleared the way Tuesday to apply for price adjustments, which if granted would bring to 35 the total list of dealers in this area certified to the office of price administration as qualified to sell at new ceiling prices. The fifteen filed checks with the state OPA office covering overcharges since May 18. The checks must be accepted by the treasury before higher prices may be authorized. Still another 20 fuel dealers are expected to confer in Salem today with Sol Stern, attorney from the state OPA office, on similar procedure. There are an estimated 100 dealers in this area. John Vaughn, executive secretary for the Salem war price and rationing board, said here this week. Stern is to be at the city hall offices of the board today to meet those who have made appointments, although it is understood that there are still appointments available.

New ceiling prices in this area \$8.75 a cord, 16 inch \$10, 12 inch \$10.25; green slabwood, \$7, \$8.25 and \$8.50; old or first growth fir (referring to "bona fide first growth of large thickness." In case of doubt, the order declares, as to whether a particular wood is first or second growth, the second growth price shall apply), \$11.75, \$13 and \$13.25; second growth fir \$10.75, \$12 and \$12.25; ash, maple and oak, \$13, \$14.50 and \$15; plywood cores and peeler cores, quoted only in 16 inch lengths at \$10. The order fixing the new ceiling prices becomes effective as to each dealer individually upon (1) the filing of a statement with the Oregon state office of price administration in Portland or with the nearest war price and rationing board that he has not sold in excess of governing maximum prices prior to the date of the issuance of the order, or (2) in event sales have been made in excess of governing maximum prices upon acceptance by the Oregon state office of the OPA of tender of a contribution covering past violations. No other dealers are authorized to sell at new ceilings.

The following firms have complied with the prerequisite conditions and may now sell at the adjusted ceiling prices: S. W. Pelky, Hug Veach, D. L. Lambert, R. M. Ashcroft, W. L. Robins, Elmer Boje, H. Kampstra, Roy Stafford, Ralph Alsmann, Jack Smith, H. E. Phillips, Harry C. Edwards, K. E. Hellenn, William L. Graien, P. T. Deckard, W. C. Sodeman, Floyd Lee DeLapp, Smith & Rubens, W. H. Oregon's Line Of Defenses Said Islands

"The first line of defense for Oregon, I believe, is Midway, Hawaii and Alaska, and I'd much prefer the navy would defend them than stay in my front yard." Gov. Charles A. Sprague told members of the Kiwanis club Tuesday.

"You can't protect everything in a global war, key points must be picked to hold, and then the point of offense selected. When the history of this war is written historians will be amazed at the economic revolution which has taken place in our industries, our cities. We have given up our gadgets of civilization and turned our attention to war." Governor Sprague paid tribute to the leadership of President Roosevelt. Without that leadership the attitude of the public mind could not have been changed from isolationism to wholehearted support of the war, he said. The isolationism has been changed from thought of war as a war to war as a cause, and has resulted in great unity in the county. Regarding labor problems the speaker said "We must have ships, and to have them we must have labor. We are paying the piper, there is no time to discuss things, that will come later."

TOO MANY PEOPLE ARE STILL TRAVELING ON WEEK ENDS—SAYS ODT WASHINGTON, (AP)—Too many people still are traveling on week-ends by bus and train. Sounding this complaint today, the office of Defense Transportation said that a further shift to mid-week travel of at least 5 per cent was necessary to eliminate the peak week-end travel load. The report showed that ticket sales on Saturday, when an average of 21 per cent of the week's entire sales take place, Sunday is next with 16 per cent. THE OFFICE OF DEFENSE TRANSPORTATION states that week end travel must be reduced. Only so much transportation is available, and war service must come first. Transportation facilities are being stretched to the limit. New buses are difficult to obtain. Unnecessary bus service is being eliminated to conserve rubber and meet the ever growing demands of the armed forces, war workers, and others who must travel to help win the war. Hundreds of our men, who used to serve you, are now in the military service (and we're proud of them) creating a serious shortage of trained personnel. The time has come when every American must realize that pleasure travel is a peacetime luxury. Greyhound is committed to the vital job of providing one service only—essential transportation. If You MUST Travel, Follow These Suggestions: ★ Ride on Tuesdays, Wednesdays, Thursdays—leave week ends for men in uniform and war workers. ★ Get tickets and information well in advance. ★ Take as little baggage as possible.
