Leaders Contribute Little to Swing To New High

NEW YORK, Oct. 26-(P)-The stock market Monday was a specialty affair with buyers favoring utilities, and selected rails, farm implements, chemicals and industrial manufacturing issues.

The traditional leaders, steels and motors, contributed little to the forward swing and the same was true of coppers, rubbers and aircrafts.

The Associated Press 60-stock average advanced .2 of a point to 40.3, a new high since last November. Transactions totaled 629,-100 shares compared with 726,930 in the previous five-hour session.

Buying interest in the power and light shares was associated with prospects for better earnings for this industry. A few utility preferred were bid up a point or more and brokers reported this a further response to the new revenue bill provision exempting payments on senior stocks.

Finishing higher were American Can, Westinghouse, du Pont, Allied Chemical, Johns-Manville, Harvester, Oliver Farm, Sears Roebuck.

# By Quinn Hall Wheat Rallies Salem Market Quotations

From Retreat CHICAGO, Oct. 26-(AP)-Rye price declines depressed the entire grain market Monday, but wheat rallied just before the close as a result of late mill buying. Rye fell as much as ¾ cent due partly to liquidation based on poor industrial demand and record stocks available. Flour bus-BUTTER, EGGS AND POULTRY iness kept wheat trade on a small

Rye closed 1/2-3/4 lower, December 651/2. Wheat was unchanged to % higher compared with Saturday, December \$1.241/2-1/4, May \$1.26%-1.27; corn 4-% off, December 79%-80, May 84%-85; Oats 1/4-1/2 down and soybeans unchanged to 1/8 lower.

Trade in wheat was practically at a standstill as dealers awaited revival of flour business, which has been dull ever since establishment of the 60-day temporary ceiling on flour more than three weeks ago. Mills were reported accepting what orders are given them but not pressing for business since there was much uncertainty as to whether present ceilings will be retained.
