Marion Corn Show Planned

Central Howell Union Sponsors Show; Prizes Offered for Best Ears

Plans for the Marion county corn show to be held November 9 and 10 at Central Howell have been completed according to S. B. Torvend, chairman of committee in charge of the show. The show is sponsored by the Central Howell Farmer's union local and will open with a night program and awarding of prizes starting at 7:30 p. m.

The show will have three classes of exhibits: class I, hybrid corn, class II, open pollinated corn, and class III, FFA and 4H classes. Exhibits in class I will consist of 12 ears—6 ears for showing and 6 ears for shelling. Exhibits in class II and III will be 6 ears.

A judging contest, open to anyone, has been arranged for 7:30 Monday. A program featuring educational information on corn will follow. Dr. R. E. Fore of OSC who will do the judging, will present a discussion on hybrid corn. This show will also remain open to the public on Tuesday in the Central Howell store.

Many prizes have been obtained for awards. The first place will be \$10 in cash, the second prize, \$5, third \$3, fourth \$2 and fifth \$1 in each of the three classes will be made up of cash, merchandise and credit slips. Prizes for the judging contest are first \$3, second \$2 and third \$1. Topping the list of prizes is a \$25 war bond to be awarded as a sweepstakes prize for the best exhibit at the show.

For the information of those wishing to exhibit in the show, all entries must be brought to the Central Howell store by 12:00

o'clock noon, November 9, or up to November 7 exhibits may be brought to the Woodburn, Salem or Silverton high school Smith-Hughes departments or to the county agricultural agents office in Salem. An exhibitor may enter one exhibit in class I, yellow hybrid corn and an exhibit in one of the other two classes.

Members of the committee who are assisting Mr. Torvend in making arrangements for this show are Marion Beutler, Salem, Donald Steffen, Silverton; and W. G. Nibler, assistant county agent. Programs giving detailed information in regard to this show may be obtained from any of the Smith-Hughes instructors in the county and at the Central Howell store or from the county agent's office.

Marion county had the largest acreage of corn in Oregon at the time of the 1940 census and is second in production. This season has been very good for maturing out quality corn which should account for a good acreage from which to provide exhibits for this show.
