

Few Stocks Make Gains

Leaders Show Little Response to News; Average Holds

NEW YORK, Nov. 5.—(AP)—Selected stocks moved up in Thursday's market but leaders generally failed to respond to the much brighter news picture.

The apparent rout of the axis forces in Egypt, hopeful bulletins from the Solomons and Russia, together with Wall street cheer over the elections, were viewed as definitely bullish items.

There was the beginning of year-end tax selling, however, and worries over the likelihood of the treasury pressing for more onerous revenue law served to chill many buyers.

The Associated Press average of 60 stocks was unchanged at 40.2. Of 789 individual issues traded, 262 were up, 262 down and 245 at Wednesday's final levels.

Transfers totaled 598,360 shares against 771,830 Wednesday. Homestake mining dipped 1/4 when Directors and Loew's ended unchanged at 44 1/2.

Among stocks getting into new high ground for the year were Yellow Truck, Continental Motors and Sears Roebuck.

General Motors and Chrysler each finished 1/4 higher. US Steel advanced 1/4 and Bethlehem 1/8.

Modest improvement was retained by American Telephone, Pennsylvania, Southern Pacific, North American, Goodyear, US Rubber, Texas Co., International Harvester, Philip Morris, Johns-Manville, Standard Brands, General Electric and American Can.

On the offside were Santa Fe, NY Central, Standard Oil (NJ), Kennecott, American Smelting, Woolworth, Westinghouse, Du Pont, Eastman Kodak, Deere, Boeing, Glenn Martin and International Nickel.

Visits From Tacoma

AURORA—Mr. and Mrs. Guy Ogle of Tacoma were weekend guests of his parents, Mr. and Mrs. James Ogle.

"Random Harvest"

And I told her how he had reacted to the recent return of memory—his first excitement, then his calmer determination and bitter regret for the years between. Finally I told her that though it seemed to me highly unlikely that after two decades he would succeed in tracing someone who hadn't apparently succeeded in tracing him during the same interval, and though the gap of years gave legal as well as every other kind of sanction to what had happened since, she must be prepared for the faint possibility; and that if it happened the publicity would be neither pleasant for her nor helpful to his position.

"He must know that too."

"Yes, but in his present mood he doesn't care."

"Oh, he doesn't care?" She said that so softly, so gently, still smiling. I tried to think of something to express the wave of sympathy that overcame me; in the end I could only give her my silence. Presently she touched my hand and said: "Thank you for telling me all this."

"I must say you take it very well."

"Did you expect me to make a scene?"

"No, but... when I try to imagine your feelings..."

"I don't feel anything yet, at least not much, but I keep on thinking of what you said—that he doesn't care!"

"I know it's terrible but..."

"Oh, no, it's wonderful! He'd throw over everything—his future—his ambitions—everything—if he could find her!"

"In his present mood he thinks so."

"Don't keep saying 'in his present mood.' Maybe his present mood is himself, and all the other moods were false... How do we know?"

"There's one thing we do know—that people are remembered as they were last seen—and twenty years is a long time."

She turned to me with brightly shining eyes.

"How sad that is, and how true."

"And from your point of view—how fortunate."

Alfalfa Seed Said Scarce

The alfalfa seed crop in Oregon is drastically reduced this year, reports E. R. Jackman, extension crop specialist at OSC, who cautions against any delay in purchasing seed needed for next spring's planting. While this state normally produces a million pounds or more of alfalfa seed, this year's production will be no more than one-fourth of that, he says.

Corn Starts Grain Rise

CHICAGO, Nov. 5.—(AP)—An advance of 2 cents a bushel in corn prices to best quotations in a month Thursday touched off enough buying to lift other cereals fractions to a cent. Brisk shipping business in corn, a letup in the country movement in some localities, and reports of good demand in rural areas, with truckers active, inspired buying. Many orders represented purchasers to cover previous short sales. Demand from industries and distillers remained good. Wheat closed 1/4 up, December \$1.25 3/4, May \$1.27 1/2-1.28.
