

Ration Rules Are Outlined

No Rural Registrars Available; Mt. Angel, Silverton Listed

SILVERTON—Silverton's war rationing board has issued the following information in regard to mileage ration for passenger vehicles at Silverton. Rationing will be held at the Eugene Field school on November 18, 19 and 20 on the hours of 3 to 9 each day. All persons in this rationing district will go to either the Silverton or the Mount Angel school as there will be no registrars in the rural districts.

Each registrant will bring in his completed application, the form for which he may obtain at any garage or filling station, his state license registration and the serial number of his war tax sticker. His application will show the serial number of the tires on his car. He must certify that he has no other unmounted tires. Tires mounted in good faith on trailers or equipment need not be reported.

In cases where the registered owner is not able to sign the application the school registrars are forbidden to receive the application and the applicant must go to the ration board at Silverton defense headquarters and make a showing why the registered owner is unable to sign. This will affect especially the owners of cars who have gone into the service, leaving their cars in the care of relatives.

No applications for trucks, fleets of cars, farm machinery or stationary equipment will be received at the school house but will go later to the rationing board.

Ration books issued at the school will entitle the holder to 240 miles of driving per month. Those requiring larger allowances for necessary work will be given another form at the school house which they will fill out and mail to the rationing board where their claims will be considered by a volunteer panel of citizens and recommended for final action by the rationing board.

To be eligible for supplemental ration, the applicant must be engaged in gainful employment under circumstances where public transportation is not available and must carry at least three fellow-workers or show reasons why this is impossible.

Persons employed in plants where there are more than 100 workers must obtain the approval of the plant committee before applying to the local rationing board. When shareholders are carried they must sign the application together with the car owner and if more than one car is used by the same group the supplemental application must be presented together. Also when there is more than one car in a household the applications must be filed together.

The volunteer panel which was appointed by E. K. Burton, defense coordinator, and which has consented to serve in this work will begin passing on supplemental applications on the Monday following registration. The panel will consist of George Hubbs, Glen Bridewell, Oscar Lee, Norris Ames, W. C. Clark, Ernest Starr, C. B. Anderson, Virgil Huddleston, Rex Albright, H. B. Jorgenson, Hugh B. Latham, Bert Terry, Ernest Boesch, Edwin Hatteberg, Lowell Brown, Reber Allen, Harold Larson. Mr. Burton will also assist.

In addition, the civilian defense council is preparing a list of women volunteers who will serve during the day at the rationing board offices at defense headquarters and assist the regular staff in answering questions and otherwise aiding persons who require assistance.
