Selling Puts Stocks Down

Good News Provokes Lighter Loads; Average Off .4

NEW YORK, Nov. 17-(AP)-As has happened many times before, the stock market Tuesday sold off on good news.

The US naval victory in the Solomons was virtually ignored as a buying incentive and, while Wall street was elated over south Pacific developments, there was an inclination to lighten commitments on the idea that the latest turn of events may have been pretty well discounted on the September-October-November bulge to highest marks for more than a year. The warning of Secretary Knox that the blast at the Japanese fleet was only the second round and far from decisive also restrained the purchasing urge to some extent.

Fractional advances are well distributed at the start. These were soon eliminated in many cases although volume was small. The reaction gained headway in the final hour and declines ran to a point or so for recent favorites, with drops of 2 to 3 in isolated

Tax selling still was a retarding factor and some potential buyers apparently held aloof on the idea that this sort of liquida-tion might expand and enable tion might expand and enable them to pick up desired issues at lower levels. An assortment of satisfactory dividends failed to buoy stocks concerned.

The Associated Pres average of 60 stocks was off .4 of a point at 39.8, largest recession since October 27. Transfers totalled 666,280 8t shares against 521, 190 the day

Oats Start Grain Drop

CHICAGO, Nov. 17-(P)-Weakness in oats, which lost more than cent under persistent selling pressure, unsettled other grain pits Tuesday. Wheat, corn and rye ecorded fractional declines.
