To Our Patrons:

With the ever increasing demands being made on transportation systems, and the extreme necessity for the transportation of workers engaged in essential and defense industries, transporting them to and from their jobs in the most efficient manner, it is necessary that shoppers, school children, and non-essential travelers cooperate with the management in carrying out the recommendations of the Office of Defense Transportation with regard to travel.

You can do your part in this War Effort if:
1. If you are a shopper, commence your trip after 9:00 a. m., and return home before 4:00 p. m., and limit your travel Monday to Friday inclusive.
2. School children return home on the first bus after school is out, and do not travel on Saturdays and Sundays. School communication books can only be good for travel on school days.
3. If you are a non-essential traveler, that is, not traveling to and from work, restrict your travel to week-days only, Monday to Friday inclusive, then only during the slack periods. In so doing, you will make the seats available on week-days and during the peak hour periods for men in the armed service, defense workers, and other essential workers.

Your cooperation in this manner will lend a great help to the War Effort by relieving congestion on already overburdened transportation systems, and enable them to better serve our service men, defense workers, and essential riders. If your trip is not essential, postpone it, and buy War Defense Bonds.
