due to the fact that farmers are holding back a record supply under the government loan program, by efforts of many dealers to buy flour whereas millers are selling only limited amounts because of the ceiling, and by reports that the flour ceiling may be revised. The resignation of price administrator Henderson was regarded as significant in view of the ceil-

ing situation, and many traders took this as a cue for buying. The day's high prices were posted soon after the opening. Wheat

LONDON, Dec. 18-(AP)-Legless at 22, Pilot Officer Colin G. S. Hodgkinson was assigned Friday to a frontline fighter squadron by the air ministry.

After flying with the fleet several months, the admiralty granted his request for transfer to the RAF. Hodgkinson is the first legless pilot in the RAF since Douglas Bader was captured by the Germans, who shot his plane down.

Hodkinson was a rugby player and was three times champion of the Panbourne nautical college. Despite his handicap, he still dances and plays golf and squash.

### **Prune Juice Price Ceiled**

WASHINGTON, Dec. 18-(AP)-The office of price administration put canners' sales of prune juices and pruns concentrates under a specific price ceiling Friday, at levels "somewhat higher than those which have been in effect." Under the general maximum price order, each canner's price for concentrates was pegged at his highest March level. The new price will be the average March figure plus 6 per cent, plus the actual increase in the cost of the dried prunes used in the concen-

trate. The same farmula will be used for prune juice or other prune products, except that an increase of 8 per cent instead of 6 per cent is allowed.

There will be no immediate effect on retail sales, but OPA said it expected later to allow retailers

#### to pass on the exact dollars-andcents increase to their customers.
